CONTINUING MEDICAL EDUCATION

Accreditation

The American Urological Association Education and Research, Inc. is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The American Urological Association Education and Research, Inc. takes responsibility for the content, quality and scientific integrity of this CME activity.

CME Credits

The American Urological Association Education and Research, Inc. designates this educational activity for a maximum of 16.25 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure Statement

As a sponsor accredited by the ACCME, the American Urological Association Education and Research, Inc. must insure balance, independence, objectivity and scientific rigor in all its sponsored activities. All faculty participating in a CME accredited sponsored program are expected to disclose to the audience any significant financial interest or other relationships with commercial supporters. The intent of this disclosure is not to prevent a speaker with a significant financial interest or other relationship from making a presentation, but rather to provide listeners with information on which they can make their own judgments. The AUA manages and resolves the conflicts of interest with commercial support in advance of the program and uses a variety of mechanisms to ensure balance and fairness in the program presentations. It remains for the audience to determine if the speaker's interests or relationships may influence the presentation with regard to exposition or conclusion.

Educational Goals and Objectives

The Annual Meeting of the Northeastern Section of the American Urological Association, Inc. is designed to provide a forum for communicating to the members and guest physicians the developing state of the art of science of urological techniques, evaluations and procedures. The program will include original papers presenting new information addressing pertinent clinical topics. Panel discussion and point-counterpoint sessions on topical issues allow for participants to openly discuss procedure and techniques. Participants will have the opportunity to discuss presentations and address questions to authors. At the completion of the Annual Meeting, participants should be able to apply this new information on research and techniques in their daily practice.

Unlabeled or Unapproved Use of Drugs or Devices

In accordance with the Essential Areas and Policies relating to commercial support, the audience is advised that one or more presentations in this continuing medical education activity may contain reference(s) to unlabeled or unapproved uses of drugs or devices. Please consult the prescribing information for full disclosure of approved uses.

Disclaimer

The opinions and recommendations expressed by faculty/authors and other experts whose input is included in this program are their own and do not necessarily represent the viewpoint of the American Urological Association Education and Research, Inc.

THURSDAY, SEPTEMBER 7, 2006 • SCHEDULE AT-A-GLANCE

Time/Room	Confederation 1	Confederation 2,3
7:00 a.m.		
8:00 a.m.		
9:00 a.m.	Live Surgery Telecast 1st Case from London, Ontario, <i>John D. Denstedt, M.D.</i>	
10:00 a.m.	Intuitive Robotics Video Session	
11:00 a.m.	Live Surgery Telecast 2nd Case from London, Ontario, <i>John D. Denstedt, M.D.</i>	
12:00 p.m.		Exhibit Hall Sneak Peak Luncheon
1:00 p.m.	State-of-the-art Lectures 1 - 3:00	
2:00 p.m.		
3:00 p.m.	Coffee Break	
4:00 p.m.	State-of-the-art Lectures 3:30 - 5:30	
5:00 p.m.		
6:00 p.m.		Exhibit Hall Opening Welcome Reception (Platinum Supporters Plaques presented)
7:00 p.m.		

7:00 a.m. - 4:00 p.m. — Registration open in 4th floor foyer
 2:00 - 4:30 a.m. — Hospitality Room, New Brunswick

NORTHEASTERN SECTION RESEARCH & EDUCATION FUND

Research and Education

This fund was initiated in 1995 by Searle Canada and Searle USA. The purpose of this fund is to assure the membership of the NS-AUA continuing excellence in research and educational activity within our Section.

Scholarship Program — Young Investigators Awards

The NS-AUA Scholarship Program was established in 1998 to provide financial scholarships to support research and educational projects. The program currently offers up to two scholarship awards annually, of \$30,000. These Young Investigator Awards provide financial assistance to a researcher in basic or clinical sciences related to urology, and to acquiring, developing or improving his or her knowledge and skills in a specific aspect of the specialty.

Urology Residents and Fellows

Beginning in 2002, the Section began offering support to 15 Urology Residency Programs in its geographical region by providing two (2) \$1,000 stipends, per urology program, to help offset costs associated with sending residents/fellows to the Annual Meeting. This funding is sent directly to the teaching Institution. Contributions to the Research and Education Fund have also enabled the Section to provide special programming and events specifically tailored for urology residents.

Through the generosity of our Section members and corporate supporters, the Research and Education Fund continues to grow. We gratefully acknowledge and thank:

Abbott Labs, LTD.	Janssen-Ortho
Abbott - Canada	Karl Storz Endoscopy – America, Inc. – USA and Canada
Alza Pharmaceuticals	Liebel-Flarsheim
Amgen and Praecis	Lilly Icos

Hoechst Marion Roussel Canada and USA	
Indevus Pharmaceuticals	

DR. GEORGE E. SLOTKIN

Excerpt from the Waterways chapter: "No history of the Northeastern Section is complete without a short biography of this indefatigable urologist. Dr. George E. Slotkin (1890-1971) (Fig. 10-13) was born in New York City but soon moved with his parents to Buffalo, NY, where he spent his professional career. We acknowledge him today as a founder, the first benefactor, and the first historian of the NS, but there is more to his story. If one were to hold up a mirror to the changing face of urology in the first half of the 20th century, it would be well reflected with an image of George E. Slotkin. A graduate of the University of Buffalo Medical School, Dr. Slotkin did postgraduate work at the New York City Post Graduate Hospital, the University of Vienna, and the University of Budapest. In 1918, he became a clinical professor of urology at the University of Buffalo. During the late 1940s, his clinical interest was tuberculosis of the urinary tract, which he treated with chalamagoric acid. Even though results of his work in this area remain inconclusive, other fruits of his career do not. Friends and colleagues of his time were fond of saying, 'George Slotkin has three loves: urology, his wife Helene, and his Rolls Royce...not necessarily in that order!' His early work, 'Nephroptosis, a resurrected disease,' was published in *The Urologic and Cutaneous Review* in 1938. His later work with E.A. Mercer, 'Case of epispadias with a double urethra,' was published in *The Journal of Urology*® in 1953. Obviously, this change in his work reflects the change in urology from its early focus on genitourinary disease to its present focus as a surgical specialty. Dr. Slotkin was named Clinical Professor of Urology Emeritus in 1954 by the University of Buffalo Medical School and continued his private practice until 1964. After retirement, he continued to write, contributing a fascinating chapter about the history of the Northeastern Section to *History of Urology*. It is a priceless, logical record of carefully researched facts. His obituary notice implies that he may have been the first American invited to join the Canadian Urological Association. Dr. and Mrs. Slotkin did not have any children; his estate included a generous bequest to the Northeastern Section to provide funding for invited guest speakers at our annual meetings." Meyer, Robert, M.D. and Margaret, "History of the Northeastern Section of the American Urological Association: Waterways."

The American Urological Association Centennial History 1902–2002. Ed. Lawrence Jones, M.D. and Paul Peters, M.D. Baltimore: American Urological Association, 2001. 585-642.

2006 INVITED GUEST SPEAKERS

Dean G. Assimos, M.D.

Professor of Surgical Sciences
Department of Urology
Wake Forest University School of Medicine
Winston-Salem, NC

Dean Assimos is currently vice-chairman of the department of urology and professor of surgical sciences at the Wake Forest University School of Medicine in Winston-Salem, North Carolina. He received his B.S. from Purdue University in 1974 and his M.D. degree from Loyola Stritch School of Medicine in 1977. He completed his urology residency at Northwestern University in 1983. He was a clinical fellow in intra-renal surgery and stone disease at Wake Forest in 1983-1984 and subsequently was an AUA research fellow at the same institution from 1984-1986. His clinical interests are the medical and surgical management of patients with nephrolithiasis, and ureteral stricture disease. His basic science research focuses on the effects of dietary oxalate, endogenous oxalate synthesis and primary hyperoxaluria. He remains an active member of the AUA stone guidelines panel and currently serves on the AUA practice guidelines committee. He is a member of a number of organizations including the AUA, A.A.G.U.S., Endourology Society and the ROCK society. He serves on the editorial board of the Journal of Endourology, Urologic Research and Med Reviews in Urology.

Joel M. Blau, CFP

President
MEDIQUS Asset Advisors, Inc.
Chicago, IL

Joel M. Blau is President of MEDIQUS Asset Advisors, Inc. Prior to forming the firm, he was Vice President and Senior Financial Counselor for AMA Investment Advisers, L.P., and an affiliate of the American Medical Association. Mr. Blau has been responsible for the analysis and design of client's financial plans. His areas of expertise include wealth preservation through estate tax planning, retirement, investment, and insurance planning. A CERTIFIED FINANCIAL PLANNER™ certificant, Mr. Blau earned his bachelor's degree in business from Drake University, with a major in finance and a specialization in investments. His monthly financial articles are included in many state, county and national medical specialty society publications. He is a frequent public speaker and has given financial seminars for the American Medical Association as well as other professional medical associations, hospitals, and clinics. Mr. Blau has been included in "Who's Who In Finance and Industry" and "Who's Who of Emerging Leaders of America." He is a member of the Institute of Certified Financial Planner licensees and holds various securities and insurance licenses. Mr. Blau has co-authored *Medical Practice Divorce: Successfully Managing a Medical*

Business Breakup (published by AMA Press) and most recently *The Prescription for Financial Health: An Authoritative Guide for Physicians* (published by Greenbranch Publishing).

Gerald B. Brock, M.D.

Professor, Department Of Surgery, Division Of Urology
University Of Western Ontario
London, Ontario
Canada

Dr Gerald Brock is currently Professor in the department of Surgery Division of Urology at the University of Western Ontario, Canada. He runs a large tertiary care erectile dysfunction and infertility clinic seeing over 1500 new consults annually. In addition he runs a productive basic research animal lab focusing on the effects of disease states on erectile physiology.

He is the author of more than 100 peer reviewed journal articles, 20 book chapters and has been awarded more than 20 research prizes for his work. He sits on the editorial board of several journals including the J. Sexual Medicine, J. Andrology and the Canadian J. Urology.

Peter R. Carroll, M.D.

Professor and Chair
Department of Urology
Ken and Donna Derr-Chevron Distinguished Professor
University of California, San Francisco

Dr. Peter Carroll received his undergraduate training at the University of California, Berkeley. After graduating with honors from Georgetown University School of Medicine, he came to UCSF for his general surgery training and urology residency. He completed a fellowship in Urologic Oncology at Memorial-Sloan Kettering Cancer Center before returning to join the faculty in the Department of Urology at UCSF.

Dr. Carroll organized the Urologic Oncology Service, one of the most active multidisciplinary programs at UCSF. In 1996, he assumed chairmanship of the UCSF Urology Department, consistently ranked as one of the top urology departments in the country by U.S. News and World Report. He holds the Ken and Donna Derr-Chevron Distinguished Professorship, and he has served as Surgeon-in-Chief of the UCSF Comprehensive Cancer Center since 2003.

Dr. Carroll has authored or co-authored over 323 publications. He is Associate Editor of the *Journal of Urology*® and plays a substantive role in other journals. He is an active member of numerous professional medical societies. He is currently principal or co-investigator of 7 peer-reviewed research grants, includ-

ing the UCSF Prostate Cancer SPORE, funded by the National Institutes of Health. His major professional interests are the study and management of urologic cancers, innovative methods of urinary tract reconstruction, and the impact of cancer detection and treatment on quality of life.

Sam S. Chang, MD

Associate Professor
Department of Urologic Surgery
Vanderbilt University School of Medicine
Nashville, Tennessee

A graduate of Princeton University and Vanderbilt University, Dr. Chang completed his residency in urologic surgery at Vanderbilt and then completed a two year fellowship in urologic oncology at Memorial Sloan-Kettering Cancer Center in New York, New York where he was Chief Fellow. His current position is Associate Professor of Urologic Surgery at Vanderbilt University. At Vanderbilt, he received a CaPCURE Young Investigator Award as well as being named as an AUA-EAU Academic Exchange Fellow.

A member of numerous organizations, currently he is a member of the AUA Foundation Prostate Advisory Board and the Vice-Chairman of the AUA Superficial Bladder Cancer Guidelines Panel. He also serves on the Executive Committee of the SUO and is the Chair of the Genito-Urinary Task Force for the AJCC in charge of cancer staging.

He has authored more than 100 publications with current research interests in diagnostic and treatment options for prostate, bladder and renal cancer.

Gregg R. Eure, M.D.

Assistant Professor of Urology
Eastern Virginia Medical School
Virginia Beach, VA

Gregg R. Eure, MD, FACS, is Assistant Professor of Urology at Eastern Virginia Medical School in Norfolk, Virginia. Dr. Eure also maintains a private urology practice with Devine-Tidewater Urology in Virginia Beach, a Division of Urology of Virginia. Dr. Eure received his medical degree from the Medical College of Virginia in Richmond, where he also completed his general surgery training. He completed a residency in urology at the Eastern Virginia Graduate School of Medicine. Dr. Eure is a fellow of the American College of Surgeons. He was recently honored with being chosen into the American Urological Association's Young Urologist Leadership Program. As Director of Clinical Research for Devine Tidewater Urology and Urology of Virginia, Dr. Eure is an active researcher in various areas of urologic disease, including the treatment of BPH

and the prevention of prostate cancer. He has published his findings in such journals as *Journal of Urology*[®] and *Urology*, and has presented at a number of national meetings, including American Urological Association annual meetings.

Harris E. Foster Jr., M.D.

Professor of Surgery
Section of Urology
Yale University School of Medicine
New Haven, CT

Dr. Harris E. Foster, Jr., M.D. received his undergraduate degree in Biology from the University of Michigan in Ann Arbor. He subsequently attended the University of Miami School of Medicine in Miami, Florida where he graduated with honors. Dr. Foster completed his preliminary general surgery and urology training at the University of Michigan Hospitals. He subsequently joined the faculty at the Yale University School of Medicine where he is currently Professor of Surgery in the Section of Urology. Dr. Foster has been involved in many of the pivotal clinical trials investigating the effects of medical therapy on the treatment of lower urinary tract symptoms secondary to benign prostatic hyperplasia and their effects on progression of this disease. In addition, he has been involved in attempts to explain some of the results of these investigations utilizing molecular biological techniques. In particular he has been studying the effects of chronic administration of alpha adrenergic antagonists on the alpha receptor system in the rat model. Dr. Foster also has interests in interstitial cystitis and is currently the chair of the National Institutes of Health sponsored Interstitial Cystitis Clinical Research Network.

Leonard G. Gomella, M.D.

The Bernard Godwin Jr. Professor of Prostate Cancer Chairman,
Department of Urology Thomas Jefferson University
1025 Walnut Street, Room 1102
Philadelphia, PA

Dr. Leonard Gomella is the Bernard W. Godwin, Jr. Professor of Prostate Cancer and Chairman of the Department of Urology at Jefferson Medical College and Associate Director of the Kimmel Cancer Center in Philadelphia. Dr. Gomella completed his medical school, general surgery and urology training at the University of Kentucky in Lexington, Kentucky. After a Urologic Oncology Fellowship in the Surgery Branch of the National Cancer Institute in Bethesda, Maryland and he joined the faculty of Jefferson Medical College in 1988 and was appointed Chair in 2002.

Dr. Gomella is involved in both basic science and clinical research in the development of new diagnostic techniques and treatments for prostate, bladder and kidney cancer. Dr. Gomella's team was first to use RT-PCR to detect micrometastasis metastasis in patients with prostate cancer. He serves as Urology Chair for

RTOG and is also recognized as an expert in urologic laparoscopy, having initiated Jefferson's program in 1990.

In addition to having given over 350 presentations, he has written over 250 papers, book chapters and monographs in the field of Urology and has served on multiple editorial boards. Dr. Gomella has authored and edited over forty books for medical students, house officers, and practicing physicians, many of which have been translated into foreign languages. He has been recognized for many years in "Best Doctors in America", Philadelphia Magazine's "Top Doctors" for Urologic Oncology and received a "Volunteer Achievement Award" in 2000 from the Pennsylvania Chapter of the American Cancer Society and an "NCI Achievement Award". In 2005, he became President of the Mid-Atlantic Section of the American Urologic Association.

Michael Koch, M.D.

Chairman and Professor
Indiana University School of Medicine
Indianapolis, IN

Dr. Koch completed his general surgery training and a year of research fellowship at Dartmouth Medical School from 1981 through 1984 and then went on to complete his urology training and serve on the faculty at Vanderbilt University School of Medicine until 1998. Dr. Koch then was appointed as the Chairman of the Department of Urology at Indiana University School of Medicine. He has an active interest in general oncology with focused areas in prostate and bladder cancer. The Department at Indiana is internationally recognized for its contributions to the treatment of most GU malignancies but particularly testis cancer. Dr. Koch is a member of the GU Surgeons and is currently a trustee of the American Board of Urology.

Katsuyuki Kuratsukuri

Assistant Professor
Department of Urology
Osaka City University School of Medicine
Osaka, Japan

Bio not available at time of publication.

Mani Menon, M.D.

Henry Ford Health System
The Raj and Padma Vattikuti
Distinguished Chair
Director, Vattikuti Urology Institute
Detroit, MI

Mani Menon, M.D., is chairman of the Department of Urology at the Henry Ford Health System, the Rajendra and Padma Vattikuti Distinguished Chair in Oncology and Director of the

Vattikuti Urology Institute. Dr. Menon is tenured professor of urology at Case Western Reserve University School of Medicine, Cleveland, OH.

Dr. Menon is one of the foremost Urologists in the United States. He graduated from JIMPER Pondicherry and did his residency in Urology at the Brady Urological Institute at John Hopkins, Baltimore, USA with Dr. Patrick Walsh. While working with Dr. Walsh, Dr. Menon developed a technique to measure androgen receptors in the human prostate, the first such measurement. Later, he moved to Washington University in St. Louis where, within two years, he became the youngest tenured clinical faculty member. The techniques involved in nerve-sparing radical prostatectomy were being developed by Walsh when Dr. Menon was at Hopkins. This enabled him to become one of the first surgeons in the world to perform this delicate operation, while he was in St. Louis. In 1983, he moved to the University of Massachusetts Medical School, to start the Division of Urological and Transplantation Surgery there. At age 34, he became the youngest chairman of Urology in the USA. Under Dr. Menon's leadership, the Department at the University of Massachusetts became the largest in New England and one of the best in the country as ranked by the U.S. News and World Report. In 1997, Dr. Menon was recruited to Henry Ford Hospital to invigorate the prostate cancer program there.

Dr. Menon's early interests were in reconstructive surgery for complex renal stones, while his research interests were in cell-crystal interactions as they relate to renal stones. At Henry Ford Hospital, Dr. Menon and his team developed techniques for robotic surgery in general and robotic prostatectomy in particular. The operation was redesigned to take advantage of the features of the robot. Arguably, the robotic approach that Menon has developed --- Vattikuti Institute Prostatectomy or VIP has become the gold standard for the surgical treatment of prostate cancer. The enhanced nerve sparing techniques that the Menon team developed, the "veil of Aphrodite", promises to dramatically improve erectile function outcomes following radical prostatectomy.

Dr. Menon has published more than 250 papers, primarily in the field of robotic surgery, renal transplantation and urolithiasis. His work has appeared in the major urological journals as well as in the *Journal of Clinical Investigation*, the *Journal of Biological Chemistry*, the *American Journal of Physiology*, *Proceedings of the National Academy* and the *New England Journal of Medicine*. He is a recipient of the Gold Cystoscope award of the American Urological Association and a member of the American Association of Genitourinary Surgeons and the Clinical Society of GU Surgeons. He is a past member of the National Kidney and Urological Disease Advisory Board and a Trustee of the American Board of Urology. Dr. Menon is profiled in the *Best Doctors of America* and the *International Who's Who in Biology and*

Medicine. He has been a visiting professor at various institutions inside the USA and all across the globe, where he has lectured and performed robotic surgery.

Tatsuya Nakatani

Professor
Department of Urology
Osaka City University School of Medicine Osaka Japan
Osaka, Japan

Bio not available at time of publication.

Nobuyasu Nishisaka, M.D.

Assistant Professor
Osaka City University School of Medicine
Osaka, Japan

Bio not available at time of publication.

Allan B. Patrick, M.D.

Head of Urology,
River Valley Health
Fredericton, New Brunswick
Canada

Dr. Allan Patrick was born in Chapleau Ontario but spent most of his life in the Maritimes. Growing up in Fredericton, NB, he attended UNB where he received his BA in Biology and Psychology in 1978. He then attended Dalhousie University where he graduated in Medicine in 1984. He took his Urology training also at Dalhousie, finishing in 1989. A clinical fellowship in Lithotripsy preceded his move to Fredericton where he has practiced since. He has held many positions at local regional and national levels. He has been Head of Urology for the Dr. Everett Chalmers Hospital and for the Region, River Valley Health, since 1991. He was instrumental in the development of New Brunswick's Mobile Lithotripsy Program, which has run successfully since 1993. He has served on the Board of Directors of the New Brunswick Medical Society and been member and Chair of many NBMS Committees most recently as Chair of the NBMS Information Technology Committee. He has served on the Board of the Canadian Urological Association, and been a member of and Chair of the CUA Socioeconomics Committee. He is currently a Board representative of the Northeastern Section of the American Urological Association. He has served on many industry advisory boards and has a busy speaking schedule. He runs a general Urology practice, with emphasis on Female Incontinence and Clinical Trials. Dr. Patrick resides in Fredericton, NB with his wife, Shelley, and children Rebecca, Ian and Katherine.

James Regan, M.D.

James B. Regan, M.D. is currently Chair of the American Urological Association's Health Policy Council and the AUA representative to the AMA's Relative Value Update Committee (RUC). He is a member of the AUA Coding and Reimbursement Committee, Patient Safety and Quality Improvement Committee and the Pay for Performance Task Force (P4P) and serves on the Health Policy Committee of the Mid Atlantic Section of the AUA. He has previously served as vice chair of the Health Policy Council and as the AUA's representative to the AMA's Practice Expense Advisory Committee (PEAC). He is a former President of the Washington Urologic Society and is currently an Associate Professor of Urology at Georgetown University Medical Center in Washington, D.C.

Grannum R. Sant, M.D.

VP and Head of Urology Portfolio
US Medical Affairs, sanofi-aventis
Professor of Urology, Tufts University School of Medicine

Born in Trinidad, Dr. Sant went to medical school in Dublin, Ireland and did his urological residency at Tufts University. He stayed in Boston, became associate Urologist-in-Chief at the New England Medical Center Hospital, was program director at Tufts in 1999, and became president of the New England section of the AUA in 2002. His research activity has focused on bladder function and dysfunction, ranging from the paraplegic bladder to interstitial cystitis, which has led to a close association with the Interstitial Cystitis Association.

A senior member of the AUA, he is now Vice-President-Urology, U.S. Medical Affairs with sanofi-aventis.

Peter C. Scardino, M.D.

Chair, Department of Urology
Head, Prostate Cancer Program
Memorial Sloan-Kettering Cancer Center
New York, NY

Dr. Scardino is recognized internationally as an expert in the early detection and surgical treatment of prostate cancer. He has pioneered techniques to decrease the effects of surgery on urinary and sexual function and to increase the chances of long term control of cancer by total removal of the prostate. Dr. Scardino and his colleagues are using modern medical informatics (artificial intelligence) to develop methods to predict the aggressiveness of prostate cancers and to determine whether some cancers may not need to be treated. His research has also focused on the identification of tissue and genetic markers that signal the behavior of a prostate cancer. He has special experience in the treatment of prostate cancers that recur after surgery or radiation therapy and is currently studying the benefits of focal, image-guided therapy for very early cancers.

Nakhil Shah, M.D.

Director, Minimally Invasive & Robotic Urology
Saint Joseph's Hospital of Atlanta
Urology Specialists of Atlanta, LLC
Atlanta, GA

Dr. Nikhil L. Shah currently serves as the Director of Minimally Invasive and Robotic Urology at Saint Joseph's Hospital of Atlanta. He trained at the Vattikuti Urology Institute under Dr. Mani Menon. During his training, Dr. Shah completed a NIH-NIDDK Urologist-Scientist Research Fellowship with Dr. Martin Sanda at the University of Michigan. In addition, he earned a degree in Health Management and Policy at the University of Michigan's School of Public Health. He has played an active role in leadership and policy related issues with the American Medical Association (AMA) and the American Urologic Association (AUA). As a resident in Urology, Dr. Shah helped to create the AUA Residents Committee and served as its Chair for 3 years. He recently received a Distinguished Service Award from AUA President, Dr. Lawrence S. Ross, M.D., for his service, dedication and leadership. Dr. Shah continues to remain active and currently serves on the AUA's Coding and Reimbursement Committee. In addition, he maintains an active role in local, national and international medical relief organizations for underserved people.

Taizo Shiraishi, M.D.

Professor
Department of Pathology
Mie University School of Medicine
Tsu, Japan

Bio not available at time of publication.

Robert G. Uzzo, M.D.

Associate Professor of Surgery
Director of Urologic Oncology Research
Department of Urologic Oncology
Fox Chase Cancer Center
Temple University School of Medicine
Philadelphia, PA

Dr. Uzzo graduated summa cum laude and valedictorian from Union College prior to attending Cornell University Medical College. He completed 2 years of general surgical training at The New York Hospital - Cornell Medical Center and Memorial Sloan Kettering Cancer Center under the tutelage of G. Thomas Shires, M.D.

Dr. Uzzo went on to complete 4 years of urologic surgical training also at The New York Hospital - Cornell Medical Center and Memorial Sloan Kettering Cancer Center under the guidance of E. Darracott Vaughan M.D. He then went on to become an American Foundation for Urological Diseases Scholar in Urological Oncology at the Cleveland Clinic. In addition, he completed a second fellowship in Renal Vascular Surgery and Transplantation under the direction of Andrew C. Novick, M.D.

Dr. Uzzo is currently an Associate Professor of Surgery at Fox Chase Cancer Center and Temple University School of Medicine. He has an active and funded lab researching the basic mechanisms of kidney and prostate cancer. His clinical interests are in minimally invasive urological oncology. He is the national urology principle investigator for E.C.O.G. 2805 (A.S.S.U.R.E.) – a cooperative group trial studying the role of adjuvant tyrosine kinase inhibitors in intermediate and high-risk kidney cancer. He has authored more than 100 peer reviewed articles and chapters in urology and urologic oncology and has been the recipient of numerous awards from the American Association of Cancer Research, the Society for Basic Urological Research and the Society of Urological Oncology.

PUBLICATION OF ABSTRACTS – 2006

The Board of Directors of the NS-AUA is pleased to announce that all accepted abstracts (podium and poster presentations) of the 2006 Annual Meeting have been published in the August issue of *The Canadian Journal of Urology* with generous support from GYRUS ACMI. A copy of this issue of the journal will be distributed when you arrive at the registration desk.

On behalf of the authors, the Executive Officers extend its sincerest thanks and appreciation to *The Canadian Journal of Urology* and GYRUS ACMI for their generosity. *The Canadian Journal of Urology* is the officially endorsed journal of the Canadian Urological Association and is indexed in Medline and Index Medicus. The journal welcomes your articles or manuscripts for review and consideration for profitable publication. For additional information on submitting manuscripts or subscription information, contact: Editor-in-Chief, Lawrence H. Koltz, M.D., F.R.C.S.C.

The Canadian Journal of Urology (CJU)

**A copy of the August edition of CJU is included in your bag for referencing this year's abstracts.*

Registration Hours

4th Floor Foyer

Wednesday: 5:00 – 7:00 p.m.

Thursday: 7:00 a.m. – 4:00 p.m.

Friday: 7:00 a.m. – 4:00 p.m.

Saturday: 7:00 a.m. – 10:00 a.m.

Exhibit Hall Hours

Confederation 2, 3

Thursday: 11:30 a.m. – 1:00 p.m.

5:30 – 7:00 p.m.

Friday: 10:00 a.m. – 3:00 p.m.

Saturday: 9:00 a.m. – 12:00 p.m.

Spouse Lounge Hours

New Brunswick Room

Thursday: 2:00 – 5:00 p.m.

Friday: 8:00 a.m. – 4:00 p.m.

Saturday: 8:00 a.m. – 1:00 p.m.

Speaker Ready Room

Nova Scotia Room

Thursday: 12:30 – 7:00 p.m.

Friday: 6:30 a.m. – 7:00 p.m.

Saturday: 6:30 – 11:00 a.m.

THURSDAY, SEPTEMBER 7, 2006

		1:00 p.m.	State-of-the-Art Lecture I Management of Prostate Cancer – <i>Peter T. Scardino, M.D.</i>
8:30 – 9:30 a.m.	Live Surgery 1 st Case Percutaneous Nephrolithotripsy – <i>John D. Denstedt, M.D.</i> Moderator: <i>Hassan Razvi, M.D.</i> At the conclusion of this session, participants will be able to: • Explain alternative surgical approaches and treatments for management of patients with kidney stones.	1:30 p.m.	State-of-the-Art Lecture II Recent advances in the Pharmacologic Treatment of BPH <i>Harris E. Foster Jr., M.D.</i> , <i>Supported by a grant from sanofi-aventis Urology</i>
9:30 – 10:30 a.m.	Intuitive Robotic Video Session <i>Randy Fagin, M.D.</i> At the conclusion of this session, participants will be able to: • Describe the latest advances and techniques in robotics surgery for urology patients.	2:00 p.m.	State-of-the-Art Lecture III The Role of PDE-5 Inhibitors in Erectile Dysfunction <i>Gerald B. Brock, M.D.</i> <i>Supported by a grant from Pfizer Inc.</i>
10:30 – 11:30 a.m.	Live Surgery 2 nd Case Ureteroscopy with Laser – <i>John D. Denstedt, M.D.</i> Moderator: <i>Hassan Razvi, M.D.</i> At the conclusion of this session, participants will be able to: • Explain alternative surgical approaches and treatments for management of patients with kidney stones.	2:30 p.m.	State-of-the-Art Lecture IV Chemotherapy Treatment for Hormone Resistant Prostate Cancer: A Surgeon's Perspective <i>Sam S. Chang, M.D.</i> <i>Supported by a grant from sanofi Oncology</i>
11:30 a.m.–1:00 p.m.	Sneak Peek Luncheon in Exhibit Hall	3:00 – 3:30 p.m.	Break
1:00 – 3:00 p.m.	State-of-the-art Lectures 1-4 Moderators: <i>Kevin Pranikoff, M.D.</i> <i>James Wilson, M.D.</i> At the conclusion of this session, participants will be able to: • Explain alternative pharmacologic treatments and management of patients with Prostate Cancer, Lower Urinary Tract Symptoms, Benign Prostatic Hyperplasia, and Renal Cell Cancer.	3:30 – 5:00 p.m.	State-of-the-art Lectures 5-7
		3:30 p.m.	State-of-the-Art Lecture VI New Treatment Paradigms for Renal Cell Carcinoma <i>Robert Uzzo, M.D.</i> <i>Supported by a grant from Bayer Pharmaceuticals</i>
		4:00 p.m.	State-of-the-Art Lecture VII An Update on Minimally Invasive Treatments and the Evolution of Lasers – <i>Gregg R. Eure, M.D.</i> <i>Supported by a grant from Boehringer-Ingelheim</i>

4:30 pm	State-of-the-Art Lecture VII ABO-Incompatible Kidney Transplantation in Japan <i>Tatsuya Nakatani, M.D.</i> "Management of BPH" <i>Nobuyasu Nishisaka, M.D.</i>		<i>Alberto Briganti, Paul Perotte, Francesco Montorsi, Markus Graefen, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz University of Montreal Health Center, Montreal, PQ, Canada.</i>
5:00 pm	Current Status of Management of Prostate Cancer in Japan <i>Katsuyuki Kuratsukuri, M.D.</i> "Latent prostatic cancer in the USA and Japan: An international comparison and chronological change" <i>Taizo Shiraishi, M.D.</i> <i>Four presentations by Japanese guests supported by a grant from Astellas Pharma, Inc</i>	8:24 a.m.	3. Treatment of Localized Prostate Cancer with High Intensity Focused Ultrasound (HIFU): Preliminary results of the North American Experience <i>Magdy M. Hassouna, M.D. Ph.D. FRCSC FACS, William Orovan, M.D. FRCSC, Edward Woods, M.D. FRCSC, Mohamed Elkelini, M.D., John Warner, M.D. FRCSC. Don Mills Surgical Center, Toronto, ON, Canada.</i>
5:30–7:00 p.m.	Exhibit Hall Grand Opening Welcome Reception		
7:00 p.m.	Optional Dine Arounds	8:31 a.m.	4. Extended Lymphadenectomy Should be Performed in Patients with PSA? 6, Biopsy Gleason Score 7-10 and Stage t2 or Higher Prostate Cancer <i>Khaled Shahrour, M.D., Alberto Briganti, Felix K.-H. Chun, Francesco Montorsi, Patrizio Rigatti, Pierre I. Karakiewicz University of Montreal Health Center, Montreal, PQ, Canada.</i>

FRIDAY, SEPTEMBER 8, 2006

6:45 – 7:45 a.m.	Residents' Breakfast Session		
7:00 – 8:00 a.m.	Industry Sponsored Breakfast Symposium Issues and Controversies in the Management of Prostate Cancer with Hormonal Therapy <i>Supported by a Grant from Watson Pharmaceuticals</i>	8:38 a.m.	5. Bicalutamide Monotherapy for Biochemical Recurrence of Prostate Cancer <i>Seth A. Capello, M.D., Ronald P. Kaufman, Jr., M.D. Albany Medical College, Albany, NY, USA.</i>
8:00 a.m.	Welcome and Introduction <i>Gabriel P. Haas, M.D.</i> <i>Northeastern Section of the AUA, President Paul F. Schellhammer, M.D.</i> <i>American Urological Association, President-Elect</i>	8:45 a.m.	6. Prostate Biopsy by CT-Guided Percutaneous Paracoccygeal Technique <i>David B. Lillie, M.D. SUNY at Buffalo, Kenmore, NY, USA.</i>
8:10 – 9:00 a.m.	Podium Session I—Prostate Cancer <i>Moderators: Joel B. Nelson, M.D.</i> <i>Pierre I. Karakiwicz, M.D.</i> <i>Supported by a Grant from GlaxoSmithKline</i> At the conclusion of this session, participants will be able to: <ul style="list-style-type: none"> • Describe areas of clinical research in prostate cancer, and identify areas of controversy in the treatment of prostate cancer patients. • Identify recent developments in the clinical and pathological staging of prostate cancer. • Describe pharmacological and surgical options for treating patients with different stages of prostate cancer. 	8:52 a.m.	7. What is the Ideal Extent of Pelvic Lymphadenectomy (PLND)? A Sensitivity Analysis <i>Khaled Shahrour, M.D., Alberto Briganti, Felix K.-H. Chun, Francesco Montorsi, Patrizio Rigatti, Pierre I. Karakiewicz University of Montreal Health Center, Montreal, PQ, Canada.</i>
8:10 a.m.	1. Extended Biopsies on Autopsy Prostates: Staging of Microfocal Cancers <i>Nicolas B. Delongchamps, M.D., Vishal Chandan, M.D., Richard Jones, Ph.D., Gregory Threatte, M.D., Mary Jumbelic, M.D., Gustavo de la Roza, M.D., Gabriel P. Haas, M.D.</i> <i>Upstate Medical University, Syracuse, NY, USA.</i>	9:00 a.m.	Adjourn
8:17 a.m.	2. The Predictive Accuracy of the Partin Tables in Men with PSA Values in Excess of 20 Ng/ML May be Limited <i>Vincent Fradet, M.D., Felix K.-H. Chun,</i>	9:00–11:45 a.m.	Tour Options for Spouses
		9:00 – 9:30 a.m.	Guest Lecture: Lymph Node Dissection in GU Surgery <i>Michael Koch, M.D.</i> <i>Supported by a Grant from GlaxoSmithKline</i>

- 9:30 – 10:00 a.m. **Point Counterpoint**
Open vs. Robotic vs. Laparoscopic Prostatectomy
Moderator: TBD
Panelists: Peter R. Carroll, M.D., Jean V. Joseph, M.D., Ali Moinzadeh, M.D.
Supported by a Grant from GlaxoSmithKline
- 9:30 – 10:30 a.m. **Moderated Poster Session I— Prostate Cancer**
Moderators: Ali Moinzadeh, M.D., J. Paul Whelan, M.D.
At the conclusion of this session, participants will be able to:
- Describe areas of clinical research in prostate cancer.
 - Identify factors that can predict lymph node invasion or positive margins
 - Identify areas of controversy in the treatment of prostate cancer patients.
 - Describe pharmacological and surgical options for treating patients with different stages of prostate cancer.
- 9:30 a.m. **Welcome and Introductions**
- 9:35 a.m. **P1. Validation of a Nomogram for Prediction of Side-specific Extracapsular Extension at Radical Prostatectomy**
Elie Antebi, M.D., Thomas Steuber, Markus Graefen, Felix K.-H. Chun, Hartwig Huland, Pierre I. Karakiewicz
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:38 a.m. **P2. Number of Lymph Nodes Removed and Examined and the Continent of Origin Represent the Foremost Predictors of Lymph Node Invasion in Men with Clinically Localized Prostate Cancer**
Naeem Bojani, M.D., Felix K.-H. Chun, Alberto Briganti, Markus Graefen, Hartwig Huland, Andrea Gallina, Francesco Montorsi, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:41 a.m. **P3. Clinical Complications of Extended Lymphadenectomy (PLND) in Patients Affected by Localized Prostate Cancer Undergoing Radical Retropubic Prostatectomy at a Single Institution**
Daniel J. Lewinsein, M.D. Alberto Briganti, Felix K.-H. Chun, Francesco Montorsi, Mike McCormack, Patrizio Rigatti, Pierre I. Karakiewicz
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:44 a.m. **P4. Validation of a Nomogram Predicting the Probability of Lymph Node Invasion (LNI) Based on the Extent of Pelvic Lymphadenectomy (PLND)**
Quoc-Dien Trinh, M.D., Alberto Briganti, Felix K.-H. Chun, Francesco Montorsi, Pierre I. Karakiewicz
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:47 a.m. **P5. Effect of Surgical Margins on Cancer Control Outcomes After Radical Prostatectomy. When Do Margins Matter?**
Elie Antebi, M.D., Christopher Porter, Alberto Briganti, Felix K.-H. Chun, Paul Perrotte, Pierre I. Karakiewicz. University of Montreal Health Center, Montreal, PQ, Canada.
- 9:50 a.m. **P6. Effect of Autologous Blood Transfusion on Predictive Accuracy of Biochemical Recurrence after Radical Prostatectomy**
Daniel J. Lewinshtein, M.D., Felix K.-H. Chun, Alberto Briganti, Markus Graefen, Hartwig Huland, Francesco Montorsi, Patrizio Rigatti, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:53 a.m. **P7. Surgical Margin Status in European Versus North American Patients at Radical Prostatectomy**
Daniel J. Lewinshtein, M.D., Felix K.-H. Chun, Alberto Briganti, Luc Valiquette, Markus Graefen, Francesco Montorsi, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:56 a.m. **P8. PSA Represents a Highly Accurate Predictor of Pathologic Stage and Surgical Outcomes**
Elie Antebi, M.D., Felix K.-H. Chun, Alberto Briganti, Sharokh F. Shariat, Francesco Montorsi, Markus Graefen, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 9:59 a.m. **P9. A Comparison of Post-implant Dosimetry After Prostate Brachytherapy in Men with Prostate Volumes Greater than and Less than 50 cc.**
Erin P. Gibbons, M.D., Ryan P. Smith, M.D., Sushil B. Beriwal, M.D., Krishna Komanduri, Ph.D, Ronald M. Benoit, M.D.
University of Pittsburgh Medical Center, Pittsburgh, PA, USA.

- 10:02 a.m. **P10.** Significant Upgrading Affects One in Four Men Diagnosed with Prostate Cancer Predictive Nomogram
Naeem Bhojani, M.D., Felix K.-H. Chun, Alberto Briganti, Luc Valiquette, Francesco Montorsi, Markus Graefen, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:05 a.m. **P11.** Improved Survival with Sipuleucel-T (APC8015) in Men with Advanced Prostate Cancer
Laurence Klotz, M.D.¹, Mark Frohlich, M.D.²
¹Sunnybrook & Women's College HSC, Toronto, ON, Canada, ²Dendreon Corporation, Seattle, WA, USA.
- 10:08 a.m. **P12.** The Effect of Surgical Volume on Failure Free Survival After Radical Prostatectomy in the Province of Quebec
Claudio Jeldres, M.D., Serge Benayoun, Alvaro Ramirez, Paul Perrotte, Michael McCormack, Francois Benard, Luc Valiquette, Fred Saad, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:11 a.m. **P13.** Poor Overall Survival in Men Treated with Definitive Radiotherapy Without Evidence of Disease Relapse—Are We Treating too Many Men with Radiotherapy?
Claudio Jeldres, M.D., Paul Perrotte, Michael McCormack, Fred Saad, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:14 a.m. **P14.** External Beam Radiotherapy Outcomes in Septa- and Octogenarians.
Claudio Jeldres, M.D., Paul Perrotte, Jean-Paul Bahary, Fred Saad, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:17 a.m. **P15.** A Critical Appraisal of the Ability of Body Mass Index (BMI) to Predict High Grade Prostate Cancer (Pca)
Vincent Fradet, M.D., Felix K.-H. Chun, Alberto Briganti, Francois Bénard, Paul Perotte, Markus Graefen, Francesco Montorsi, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:20 a.m. **P16.** Natural Progression of Men Treated with Hormonal Therapy After Radical Prostatectomy and PSA Recurrence
Quoc-Dien Trinh, M.D., Kyoung-Hwan Felix Chun, Alberto Briganti, Koichi Kodama, Robert Gibbons, Roy Jnr. Correa, Paul Perrotte, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:23 a.m. **P17.** Impact of Ratio Between Gland Size and Number of Biopsy Cores on Repeat Prostate Biopsy: Development and Internal Validation of A New Repeat Biopsy Nomogram in Men Assessed with 10 or More Cores
Vincent Cloutier, M.D., Felix K.-H. Chun, Alberto Briganti, Markus Graefen, Luc Valiquette, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 10:00 – 10:30 a.m. Break
- 10:30 – 11:30 a.m. **Moderated Poster Session II—Laparoscopy, Infertility and Stones**
Moderators: Jean V. Joseph, M.D. Anil Kapoor, M.D.

At the conclusion of this session, participants will be able to:
 - Describe innovative surgical procedures and their effect on the management of patients with urinary tract disorders, including kidney cancer, prostate cancer, ureteral injury and stones..
 - Discuss effect on smoking on sperm quality.
- 10:30 a.m. Welcome and Introductions
- 10:35 a.m. **P18.** Robot-assisted Extraperitoneal Radical Prostatectomy in Patients with Prior Hernia Surgery
Judd Boczko, M.D., Seth Capello, M.D., Dragan Golijanin, M.D., Ralph Madeb, M.D., Erdal Erturk, M.D., Hiten Patel, M.D., Jean V. Joseph, M.D.
Strong Memorial Hospital, University of Rochester, Rochester, NY, USA.
- 10:38 a.m. **P19.** A Prospective Comparison Between Extraperitoneal and Transperitoneal Robot-assisted Radical Prostatectomy
Judd Boczko, M.D., Seth Capello, M.D., Mary Mathe, PA, Erdal Erturk, M.D., Hiten Patel, M.D., Jean V. Joseph, M.D.
Strong Memorial Hospital, University of Rochester, Rochester, NY, USA.
- 10:41 a.m. **P20.** Semen Parameters and DNA Fragmentation in a Smoking Mouse Model
Eric A. Singer, M.D., MA, Sue Schoen, Changyong Feng, Ph.D., Gyun Jee Song, Ph.D., Matthew A. DiMaggio, BS, Jeanne

	<i>H. O'Brien, M.D. University of Rochester Medical Center, Rochester, NY, USA.</i>	10:59 a.m.	P26. Stone-to-skin Distance Greater than F2-to-skin Distance has no Effect on Shock-wave Lithotripsy Success <i>Marc C. Smaldone, M.D.¹, Bruce L. Jacobs, M.D.¹, Arlene M. Smaldone, DNSc, CPNP, CDE2, Daniel J. Ricchiuti, M.D.¹, Timothy D. Averch, M.D.¹.</i> ¹ University of Pittsburgh Medical Center, Pittsburgh, PA, USA, ² Columbia University School of Nursing, New York, NY, USA
10:44 a.m.	P21. The Diagnosis of Late Onset Hypogonadism (Loh) Remains a Clinical and Biochemical Dilemma <i>Laurel E. Emerson, R.N., Research Coordinator¹, Angela M. Black, R.N Research Coordinator¹, Michael Spevack², Michael Spevack², Irvin Kuzmarov³, Richard Casey, M.D. FRCSC⁴, Serge Carrier, M.D. FRCSC⁵, Roland Tremblay, M.D.⁶</i> ¹ Queens University, Kingston, ON, Canada, ² Ultra Med Inc, Pointe Claire, PQ, Canada, ³ Ultra Med, Pointe Claire, PQ, Canada, ⁴ The Male Health Centre, Oakville, ON, Canada, ⁵ McGill Urology Associates, Montreal, PQ, Canada, ⁶ CHUG. CHUL, Ste. Foy, PQ, Canada.	11:05 a.m.	P27. Predictors of Shock-wave Lithotripsy Success for Proximal Ureteral Calculi on Non-contrast CT <i>Eric A. Singer, M.D., MA, Jared D. Christensen, M.D., Judd Boczko, M.D., Susan Messing, MS, Jean V. Joseph, M.D., Erdal Erturk, M.D.</i> University of Rochester Medical Center, Rochester, NY, USA.
10:47 a.m.	P22. Short-term Dutasteride Use Decreases Serum PSA But Has Minimal Effect on Prostate Volume in Men with Prostate Cancer Prior to Robotic Prostatectomy <i>William Badger, M.D.¹, Michael Perrotti, M.D.², Michael Moran³, James Belarmino, M.D.¹, Daryl McLeod¹</i> ¹ Albany Medical Center, Albany, NY, USA, ² Saint Peter's Hospital, Albany, NY, USA, ³ Saint Peter's Hospital, Albany, NY, USA.	11:08 a.m.	P28. Effect of Gatorade on Urinary Stone Risk Factors <i>Danielle D. Sweeney, M.D., Daniel J. Ricchiuti, M.D., Timothy D. Averch, M.D.</i> University of Pittsburgh, Pittsburgh, PA, USA.
10:50 a.m.	P23. The Influence of Laparoscopy on Partial Nephrectomy Rate for Small Renal Masses <i>William Badger, M.D.¹, Michael Perrotti, M.D.³, Michael Moran, M.D.², Daryl McLeod¹.</i> ¹ Albany Medical Center, Albany, NY, USA, ² Saint Peter's Hospital, Albany, NY, USA.	10:30 – 11:30 a.m.	Podium Session II—Bladder Cancer <i>Moderators: Edward M. Messing, M.D. J. Paul Whelan, M.D.</i> At the conclusion of this session, participants will be able to: • Describe areas of clinical research in bladder cancer. • Identify factors that can affect outcomes in patients with bladder cancer. • Describe current innovative pharmacological and surgical treatments for patients with bladder cancer.
10:53 a.m.	P24. Impact of Robotics and Laparoscopy on Surgical Skills: A Comparative Study <i>Sasha Pavlov-Shapiro, M.D.¹, Boris Kuvshinoff², William E. Brady, MS², Aftab Nida, BS¹, Hyung Kim, M.D.², James Mohler, M.D.², Khurshid A. Guru, MBBS².</i> ¹ University at Buffalo, Buffalo, NY, USA, ² Roswell Park Cancer Institute, Buffalo, NY, USA.	10:30 a.m.	Welcome and Introductions
10:56 a.m.	P25. Open Repair for Benign Ureteral Strictures in the Modern Era of Endoscopic Management <i>Anthony T. Corcoran, M.D., Mark C. Smaldone, M.D., Daniel J. Ricchiuti, M.D., Timothy D. Averch, M.D.</i> University of Pittsburgh, Pittsburgh, PA, USA.	10:35 a.m.	8. Competing Risks Nomogram Predicting the Probability of Bladder Cancer Recurrence After Cystectomy Can Reliably Distinguish Between Those Destined to Recur and Those Who May Die of Other Causes Before Recurrence <i>Vincent Fradet, M.D., Felix K.-H. Chun, Alberto Briganti, Shahrokh F. Shariat, Ganesh Palapattu, Arthur Sagalowsky, Seth Lerner, Mark Schoenberg, Pierre I. Karakiewicz.</i> University of Montreal Health Center, Montreal, PQ, Canada.
		10:42 a.m.	9. Internal Validation of a Competing-Risks Survival Nomogram for Patients Treated with Cystectomy for Bladder Cancer <i>Quoc-Dien Trinh, M.D., Alberto Briganti, Felix K.-H. Chun, Shahrokh F. Shariat, Arthur Sagalowsky, Seth Lerner, Mark Schoenberg, Pierre I. Karakiewicz.</i> University of Montreal Health Center, Montreal, PQ, Canada.

10:49 a.m.	<p>10. Impact of Concomitant Carcinoma in Situ on Clinical Outcomes After Radical Cystectomy <i>Vincent Pradet, M.D., Shahrokh F. Shariat, Ganesh S. Palapattu, Pierre I. Karakiewicz, Mark P. Schoenberg, Seth P. Lerner, Arthur I. Sagalowsky, Yair Lotan.</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i></p>	1:00 – 2:00 p.m.	<p>Podium Session III – Pediatrics <i>Moderators: Jyoti Upadhyay, M.D. Ann-Marie Houle, M.D.</i></p> <p>At the conclusion of this session, participants will be able to:</p> <ul style="list-style-type: none"> • Describe current areas of research in pediatric urology, and identify areas of controversy in treating pediatric patients with anticholinergic therapy. • Describe novel techniques in the management of children with hypospadias, ectopic ureteroceles and ueteropelvic junction obstruction. • Identify state-of- the-art diagnostic tools in the diagnosis and management of patients with enuresis, renal trauma and nonpalpable testicles.
10:56 a.m.	<p>11. Delay in Radical Cystectomy Over 12 Weeks is Not Associated with Adverse Outcome: Results from the Bladder Cancer Research Consortium <i>Thierry Lebeau, M.D., Matthew E. Nielsen, Shahrokh F. Shariat, Pierre I. Karakiewicz, Seth P. Lerner, Arthur I. Sagalowsky, Mark P. Schoenberg, Ganesh S. Palapattu.</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i></p>	1:00 p.m.	Welcome and Introductions
		1:04 p.m.	<p>15. Refractory Nocturnal Enuresis: True Benefits of Urology Referral <i>Suzanne Moyer, RN, William C. Hulbert, M.D., Cheryl Kline, CPNP, Ronald Rabinowitz, M.D., Robert A. Mevorach, M.D.</i> <i>University of Rochester, Rochester, NY, USA.</i></p>
11:03 a.m.	<p>12. Prognostic Significance of Deep Muscular Invasion and Extravesical Extension in Pathological Staging of Bladder Cancer After Radical Cystectomy <i>Quoc-Dien Trinh, M.D., Shahrokh F. Shariat, Pierre I. Karakiewicz, Arthur I. Sagalowsky, Seth P. Lerner, Mark P. Schoenberg, Ganesh S. Palapattu.</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i></p>	1:11 p.m.	<p>16. Radical Bulbar Dissection and TIP Urethroplasty to Correct Proximal Hypospadias with Severe Chordee: Applicability and Outcomes <i>Marc C. Smaldone, M.D., Glenn M. Cannon, Jr., M.D., Ethan Polsky, M.D., Steven G. Docimo, M.D.</i> <i>University of Pittsburgh Medical Center, Pittsburgh, PA, USA.</i></p>
11:10 a.m.	<p>13. Predictive Accuracy, Sensitivity and Specificity of Nuclear Matrix Protein 22 and Urine Cytology for Prediction of Recurrence of Non-transitional Cell Carcinoma of the Bladder <i>Daniel J. Lewinshtein, M.D., Serge Benayoun, Alberto Briganti, Felix K.-H. Chun, Shahrokh F. Shariat, Paul Perrotte, Pierre I. Karakiewicz.</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i></p>	1:18 p.m.	<p>17. Ectopic Ureterocele in Duplex Systems: Long Term Follow Up After a Staged Approach <i>Ming-Hsien Wang, M.D., Saul P. Greenfield, M.D., Pierre Williot, M.D., John M. Rutkowski.</i> <i>Children's Hospital of Buffalo, Buffalo, NY, USA.</i></p>
11:17 a.m.	<p>14. Robot-assisted radical Cystectomy and Pelvic Lymph Node dissection; Initial Experience at Roswell Park Cancer Institute <i>Khurshid A. Guru, M.D.¹, Hyung L. Kim, M.D.¹, Pamela Piacente, PA¹, Teresa Danforth², Greg Zimmerman, M.D.¹, James L. Mohler, M.D.¹.</i> ¹Roswell Park Cancer Institute, Buffalo, NY, USA, ²university of Buffalo, Buffalo, NY, USA.</p>	1:25 p.m.	<p>18. Can CT Scan Findings Shorten the Recovery for Grade IV Blunt Renal Trauma in Children? <i>Glenn M. Cannon, Jr., M.D., Marc C. Smaldone, M.D., Ethan G. Polsky, M.D., Francis X. Schneck, M.D., Mark F. Bellinger, M.D., Steven G. Docimo, M.D., Hsi-Yang Wu, M.D.</i> <i>Children's Hospital of Pittsburgh, Pittsburgh, PA, USA.</i></p>
11:24 a.m.	Discussion	1:32 p.m.	<p>19. Method to Diagnose Testicular Torsion Using Near Infrared Fluorescence (NIRF) of Intravenous Indocyanine Green (ICG) <i>Dragan Golijanin, M.D., Ralph Madeb, M.D., Ronald Wood, Ph.D., Jay E. Reeder, Ph.D., Robert Mevorach, M.D., William Hulbert, M.D., Ronald Rabinowitz, M.D., Edward M. Messing, M.D., Jean Joseph.</i> <i>Departments of Urology and Pathology URM, SMH, Rochester, NY, USA.</i></p>
11:30 a.m.	Adjourn		
11:30 a.m.–12:00 p.m.	Guest Lecture: Superficial Bladder Cancer <i>Leonard G. Gomella, M.D.</i>		
12:00 – 1:00 p.m.	Exhibit Hall Open, Lunch Served		

1:39 p.m.	<p>20. Early Experience with Laparoscopic Pyeloplasty for Ureteropelvic Junction Obstruction in Children: Evolution of Technique <i>Danielle D. Sweeney, M.D., Christine Kim, M.D., Francis X. Schneck, M.D., Steven G. Docimo, M.D.</i> <i>University of Pittsburgh, Pittsburgh, PA, USA.</i></p>	3:11 p.m.	<p>P31. Peripheral Benzodiazepine Receptor has Antiapoptotic Effects in Prostate Cancer and is Elevated in Primary and Metastatic Prostate Malignancies <i>Ardavan Akhavan, BA, Uzma S. Shah, Ph.D., Anil Parwani, M.D., Joel B. Nelson, M.D., Beth R. Pflug, Ph.D.</i> <i>University of Pittsburgh, Pittsburgh, PA, USA.</i></p>
1:46 p.m.	<p>21. Another Benefit of Laparoscopy for Non-palpable Testes: Finding Contralateral Hernias <i>Bulent Onal, M.D., Barry A. Kogan, M.D., F.A.C.S., F.A.A.P.</i> <i>Albany Medical College, Albany, NY, USA.</i></p>	3:14 p.m.	<p>P32. Safety and Efficacy of Bladder Botulinum Toxin Injection in the Elderly <i>Marc C. Smaldone, M.D.¹, Margie O'Leary, M.S.N, R.N¹, Catherine A. Thomas, Ph.D.¹, Janet Erickson, B.S¹, Sara Marx, B.S¹, Christopher P. Smith, M.D.², Michael B. Chancellor, M.D.¹</i> <i>¹University of Pittsburgh Medical Center, Pittsburgh, PA, USA, ²Baylor College of Medicine, Houston, TX, USA.</i></p>
1:53 p.m.	<p>22. Anticholinergic Effects on Short-term Memory Recall <i>Barry A. Kogan, M.D.¹, Karla M. Giramonti, MS FNP1, Leslie F. Halpern, Ph.D.²</i> <i>¹The Urological Institute of Northeastern New York, Albany, NY, USA, ²University at Albany, SUNY Department, Albany, NY, USA</i></p>	3:17 p.m.	<p>P33. Ureteroscopic Treatment of Stone Disease is Equally Effective in Both Younger and Older Pediatric Populations <i>Marc C. Smaldone, M.D., Glenn M. Cannon, Jr., M.D., Jeffrey Bassett, Hsi-Yang Wu, M.D., Mark F. Bellinger, M.D., Steven G. Docimo, M.D., Francis X. Schneck, M.D.</i> <i>University of Pittsburgh Medical Center, Pittsburgh, PA, USA.</i></p>
2:00 p.m.	Adjourn	3:20 p.m.	<p>P34. Bone Marrow Derived Cells (BM.D.Cs) are Capable of Regenerating Prostate Epithelium: Implications for an Extra-prostatic Source of Prostate Progenitor Cells <i>Ganesh S. Palapattu, M.D.¹, Alan Meeker, Ph.D.², Timothy Harris, BS², Michael Collector, MS², Saul Sharkis, Ph.D.², Angelo DeMarzo, M.D., Ph.D.², Charles Drake, M.D., Ph.D.², William G. Nelson, M.D., Ph.D.²</i> <i>¹University of Rochester School of Medicine, Rochester, NY, USA, ²Johns Hopkins University School of Medicine, Baltimore, MD, USA.</i></p>
2:00 – 4:00 p.m.	<p>Moderated Poster Session III— Pediatrics, Female Urology, Basic and General Urology <i>Moderators: Robert Lai, M.D. Ross G. MacMahon, M.D.</i></p> <p>At the conclusion of this session, participants will be able to:</p> <ul style="list-style-type: none"> • Describe current areas of research in pediatric urology, and state-of-the-art therapeutic options for managing patients with common and complex pediatric urological problems. • Describe treatment options for urinary incontinence with emphasis on surgical procedures and therapeutic outcomes. • Describe current research in prostate cancer. • Identify safety and tolerability of different pharmacological therapies in a urological disorders 	3:23 p.m.	<p>P35. Initial Experience with the Male Sling Using Composite Graft for Treatment of Stress Urinary Incontinence in Post-prostatectomy Patients <i>Bashar Omarbasha, M.D., Oleg Shapiro, M.D.</i> <i>Upstate Medical University, Syracuse, NY, USA.</i></p>
2:00 – 2:30 p.m.	<p>Guest Lecture: Pediatric Urology <i>Curtis A. Sheldon, M.D.</i></p>		
2:30 – 3:00 p.m.	Break — Visit Exhibit Hall		
3:00 – 3:30 p.m.	<p>Stump the Professors Difficult Cases from the Community <i>Michael O. Koch, M.D., Peter R. Carroll, M.D., Dean G. Assimos, M.D., Leonard Gomella, M.D.</i></p>		
3:00 p.m.	Welcome and Introductions		
3:05 p.m.	<p>P29. Intravaginal Testicular Torsion: Avoiding Neglect of the Infant and Child <i>Robert Mevorach, M.D., William Hulbert, Ronald Rabinowitz.</i> <i>University of Rochester, Rochester, NY, USA.</i></p>		
3:08 p.m.	<p>P30. Early Versus Late Treatment of Voiding Dysfunction with Pelvic Neuromodulation</p>		

- 3:26 p.m. **P36.** The Cost-effectiveness of Suburethral Male Sling for Stress Urinary Incontinence Versus Artificial Urinary Sphincter 800
Oleg Shapiro, M.D., Bashar Omarbasha, M.D.
Upstate Medical University, Syracuse, NY, USA.
- 3:29 p.m. **P37.** Sildenafil Citrate (Viagra®) is Efficacious and Well Tolerated in Men with Both Erectile Dysfunction and Lower Urinary Tract Symptoms
Evan R. Goldfischer, M.D.¹, Kevin T. McVary, M.D.², Li-Jung Tseng, PhD³, Gené van den Ende, MBBCh³.
¹Hudson Valley Urology, P.C., Poughkeepsie, NY, USA, ²Feinberg School of Medicine, Northwestern University, Chicago, IL, USA, ³Pfizer Inc, New York, NY, USA.
- 3:32 p.m. **P38.** Ureteral Access Sheath Usage in Pediatric Ureteroscopy
Glenn M. Cannon, Jr., M.D., Marc C. Saldone, M.D., Jeffrey C. Bassett, BS, Hsi-Yang Wu, M.D., Mark F. Bellinger, M.D., Steven G. Docimo, M.D., Francis X. Schneck, M.D.
Children's Hospital of Pittsburgh, Pittsburgh, PA, USA.
- 3:35 p.m. **P39.** Short-term Independent Outcomes with the Prolieve Thermolization System for BPH
William P. Conners, III, M.D., Ronald P. Kaufman, Jr., M.D., Badar M. Mian, M.D., Hugh A. G. Fisher, M.D.
Albany Medical College, Albany, NY, USA.
- 3:38 p.m. **P40.** Progression of Prostate Carcinogenesis in an ERCC1-deficient Prostatic Tissue Recombinant Model
Derek J. Matoka, M.D., Veronica Yao, Ph.D., Dean J. Bacich, Ph.D.
University of Pittsburgh, Pittsburgh, PA, USA.
- 3:41 p.m. **P41.** The Importance of Pressure-Flow Study for Predicting Postoperative Voiding Difficulties in Women with Stress Urinary Incontinence: A Preliminary Study that Correlates Low Pdet x Qave Value with Postoperative Residual Urine
Hidenori Kawashima, M.D., Ph.D.
Osaka City University Graduate School of Medicine, Osaka, Japan.
- 3:44 p.m. **P42.** BMI and Its Ability to Improve Prediction of Biochemical Recurrence (BCR) After Radical Prostatectomy (RP): Does a Statistically Significant Marker Always Improve Predictive Accuracy in Multivariate Models?
Naeem Bhojani, M.D., Felix K.-H. Chun, Alberto Briganti, Shahrokh F. Shariat, Francois Bénard, Claus G. Roehrborn, Markus Graefen, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 3:47 p.m. **P43.** The Tolerability of Tolterodine is Not Diminished in Older Patients: An Analysis of 5 Randomized, Double-blind, Placebo-controlled Trials
Evan R. Goldfischer, M.D.¹, Dale B. Glasser, Ph.D.², Martin Carlsson, MS².
¹Hudson Valley Urology, P.C., Poughkeepsie, NY, USA, ²Pfizer, Inc, New York, NY, USA.
- 3:50 p.m. **P44.** HATS—Health Advocacy in Training Survey
Mike Leveridge, Darren Beiko, D. Robert Siemens.
Queen's University, Kingston, ON, Canada.
- 3:53 p.m. **P45.** Genotyping of SRA Isoforms in the Caucasian Prostate Cancer Patients
Shozo Sugita¹, Ching Y. Wang¹, Tomoaki Tanaka², Hidenori Kawashima², Tatsuya Nakatani², Gabriel P. Haas¹.
¹SUNY Upstate medical university, Syracuse, NY, USA, ²Osaka City University graduate school of Medicine, Osaka, Japan.
- 3:30 – 4:00 p.m. **Podium Session IV—Prostate Cancer Recurrence/Biopsies**
Moderators: Badar Mian, M.D.
At the conclusion of this session, participants will be able to:
 - Describe areas of clinical research in prostate cancer, and identify areas of controversy in the treatment of prostate cancer patients.
 - Identify recent developments in the clinical and pathological staging of prostate cancer.
 - Describe pharmacological and surgical options for treating patients with different stages of prostate cancer.
- 3:30 p.m. **23.** Prostate Volume and High Grade Prostate Cancer: Are Pcpt Findings Right?
Vincent Fradet Fradet, M.D., Alberto Briganti, Felix K.-H. Chun, Francesco Montorsi, Markus Graefen, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.
- 3:37 p.m. **24.** Number of Positive Cores Does Not Improve Ability in Predicting Pathological Stage and Biochemical Recurrence (BCR)
Thierry Lebeau, M.D., Alberto Briganti, Felix K.-H. Chun, Markus Graefen, Francesco Montorsi, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.

3:44 p.m. **25.** Prostate Volume at Initial Biopsy is the Most Important Predictor of Repeat Biopsy Outcome: Validation of a Novel Predictive Tool
Alvaro Ramirez, M.D., Felix K.-H. Chun, Alberto Briganti, Christopher Porter, Francesco Montorsi, Markus Graefen, Patrizio Rigatti, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada.

3:51 p.m. **26.** Impact of Gland Size on Initial 10 or More (+) Core Prostate Biopsy: Development and Internal Validation of a 10+ Cores Biopsy Nomogram
Vincent Cloutier, M.D., Alberto Briganti, Felix K.-H. Chun, Shahrokh F. Shariat, Markus Graefen, Francesco Montorsi, Patrizio Rigatti, Claus G. Roehrborn, Hartwig Huland, Pierre I. Karakiewicz.
University of Montreal Health Center, Montreal, PQ, Canada

4:00 p.m. Adjourn

4:00 – 4:30 p.m. Guest Lecture: Prostate Cancer
Peter R. Carroll, M.D.

4:30 – 5:15 p.m. Strategic Retirement and Estate Planning Solutions
Joel M. Blau, CFP, Mediquis Asset Advisors, Inc. (spouses invited)

7:00 – 11:00 p.m. Fun Night — Canadian War Museum

SATURDAY, SEPTEMBER 9, 2006

6:15 – 9:00 a.m. 5K Fun Run — Rideau Canal

6:45 – 7:45 a.m. Residents' Breakfast Session
Nikhil Shah, M.D.

7:00 – 8:00 a.m. Annual Business Meeting

8:00 – 9:00 a.m. **Podium Session V — Laparoscopy**
Moderators: David A Corral, M.D., Stephen E. Pautler, M.D.

At the conclusion of this session, participants will be able to:

- Describe current alternatives in surgical treatments for patients with kidney and bladder stones. Identify state-of-the-art surgical techniques in the management of different Urological disorders using laparoscopy.
- Describe current alternatives in surgical treatments for patients with kidney and bladder stones.

8:00 a.m. Welcome and Introductions

8:05 a.m. **27.** Retroperitoneoscopic Live Donor Nephrectomy: Initial Experience with a Modified Hand-assist Approach
Andrew Feifer, M.D.¹, Abrar Khan, M.D.², Jean Tchervenkov, M.D.¹, Mark K. Plante, M.D.², John-Paul Capolicchio, M.D.¹.
¹McGill University, Montreal, PQ, Canada, ²University of Vermont, Burlington, VT, USA.

8:12 a.m. **28.** Robot-assisted Radical Prostatectomy in Obese Patients
Judd Boczko, M.D., Seth Capello, M.D., Dragan Golijanin, M.D., Ralph Madeb, M.D., Hiten Patel, M.D., Jean V. Joseph, M.D.
Strong Memorial Hospital, University of Rochester, Rochester, NY, USA.

8:19 a.m. **29.** Location of Positive Margin and PSA Progression in Patients Undergoing Extraperitoneal Robot-assisted Radical Prostatectomy
Judd Boczko, M.D., Seth Capello, M.D., Dragan Golijanin, M.D., Jorge Yao, Ralph Madeb, M.D., Erdal Erturk, M.D., Hiten Patel, M.D., Jean V. Joseph, M.D.
Strong Memorial Hospital, University of Rochester, Rochester, NY, USA.

8:26 a.m. **30.** Early Potency Outcomes After Cautery-free Versus Bipolar Neurovascular Bundle Preservation During Extraperitoneal Robotic Prostatectomy
Judd Boczko, M.D., Seth Capello, M.D., Mary Mathe, PA, Erdal Erturk, M.D., Hiten Patel, M.D., J V. Joseph, M.D.
Strong Memorial Hospital, University of Rochester, Rochester, NY, USA.

8:33 a.m. **31.** Robot-assisted Anterior Exenteration: Technique and Case Series
Mark A. Nogueira, M.D.¹, Hyung L. Kim, M.D.², Pamela Piacente, PA2, Gregg E. Zimmerman, M.D.², James L. Mohler, M.D.², Khurshid A. Guru, M.D.².
¹State University of New York at Buffalo, Buffalo, NY, USA, ²Roswell Park Cancer Institute, Buffalo, NY, USA.

8:40 a.m. **32.** Intermediate Term Follow up of Laparoscopic Renal Tumor Cryoablation: Proceed with Caution
Gregory Spana, M.D., Amar Singh, M.D., Bijan Shekarriz, M.D., Alireza Moinzadeh, M.D.
SUNY—Upstate Medical University, Syracuse, NY, USA.

8:47 a.m.	33. Laparoscopic Extravesical Ureteral Reimplantation: Initial Experience with Two Cases <i>Margaret Roth, M.D., Amar Singh, Ali Moinzadeh, M.D.</i> <i>SUNY-Upstate Medical University, Syracuse, NY, USA.</i>	A Review of Clinical Experience <i>James M. Belarmino, M.D.¹, Michael Perrotti, M.D.².</i> <i>¹Albany Medical Center, Albany, NY, USA, ²St. Peters Hospital, Albany, NY, USA.</i>
8:54 a.m.	Discussion	
9:00 a.m.	Adjourn	
9:00 – 10:00 a.m.	Moderated Poster Session IV— Other Cancer <i>Moderators: Ronald P. Kaufman, M.D.</i> At the conclusion of this session, participants will be able to: <ul style="list-style-type: none"> • Describe current areas of research in Urologic cancers. • Identify areas of controversy in treating patients and state-of-the-art therapeutic options for managing patients with common and complex urological problems. 	9:23 a.m. P52. Preoperative and Intraoperative Imaging of Penile Sentinel Lymph Nodes (SLN) Using Indocyanine Green (ICG) Near Infrared Fluorescence (NIRF) <i>Dragan Golijanin, M.D., Ralph Madeb, M.D., Ronald Wood, Ph.D., Jay E. Reeder, Ph.D., Vikram Dogra, M.D., Jorge Yao, M.D., Jean Joseph, Edward M. Messing, M.D.</i> <i>Department of Urology, Pathology and Radiology, URMCM,SMH, Rochester, NY, USA.</i>
9:00 a.m.	Welcome and Introductions	
9:05 a.m.	P46. Effect of Perioperative Blood Transfusion on Prostate Cancer Recurrence <i>Satish Sharma, M.D.², James Mohler, M.D.², Beneranda S. Ford, M.D.¹</i> <i>²Roswell Park Cancer Institute, Buffalo, NY, USA., ¹SUNY @ Buffalo, Buffalo, NY, USA</i>	9:26 a.m. P53. Intraoperative Sentinel Lymph Node (SLN) Detection Using Near Infrared Fluorescence (NIRF) After Intravesical Indocyanine Green (ICG) Administration to Up II / SV 40T Mouse Model of Bladder Cancer <i>Dragan Golijanin, M.D., Aimee Johnson, MS, Jay E. Reeder, Ph.D., Ronald Wood, Ph.D., Vikram Dogra, M.D., Jean Joseph, M.D., Edward M. Messing, M.D.</i> <i>Departments of Urology, Pathology and Radiology, URMCM,SMH, Rochester, NY, USA.</i>
9:08 a.m.	P47. Single-centre Evaluation of the NMP-22 Point-of-care Assay as an Adjunctive Tool for the Diagnosis of Bladder Cancer <i>Sylvia M. Robb, RN, Research Coordinator, Laurel Emerson, RN Research Coordinator, Chris Kong, Medical Student, Alvaro Morales, M.D. FRCSC.</i> <i>Queens University, Kingston, ON, Canada.</i>	9:29 a.m. P54. The Effect of Competing Mortality on the Risk of Cancer-specific Survival in Kidney Cancer <i>Quoc-Dien Trinh, M.D., Pierre I. Karakiewicz, Paul Perrotte, Alberto Briganti, Felix K.-H. Chun, Jean-Jacques Patard</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i>
9:11 a.m.	P48. Observation of Large Renal Masses: Insight into the Natural History of Kidney Cancers <i>Ashley R. Cox, M.D., Joseph L. Chin, M.D., Stephen E. Pautler, M.D.</i> <i>University of Western Ontario, London, ON, Canada.</i>	9:32 a.m. P55. Internal Validation of a Competing-Risks Survival Nomogram for Patients Treated with Radical Prostatectomy (RP) for Clinically Prostate Cancer (PCa). <i>Quoc-Dien Trinh, M.D., Christopher Porter, Alberto Briganti, Felix K.-H. Chun, Pierre I. Karakiewicz.</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i>
9:14 a.m.	P49. Post-prostatectomy Incontinence: Factors Affecting Treatment Success <i>Paul H. Johnston, M.D., D. Robert Siemens, M.D., Janice Jackson, R.N.</i> <i>Queen's University, Kingston, ON, Canada.</i>	9:35 a.m. P56. The Effect of Competing Mortality on Prostate Cancer (PCa)-specific Survival and Rate of Metastatic Disease after Radical Prostatectomy (RP) <i>Christopher Porter, M.D., Alberto Briganti, Felix K.-H. Chun, Koichi Kodama, Robert Gibbons, Roy Jnr. Correa, Paul Perrotte, Pierre I. Karakiewicz.</i> <i>University of Montreal Health Center, Montreal, PQ, Canada.</i>
9:17 a.m.	P50. Evaluation of a Novel Technique of Running Fascial Closure and Post-operative Incisional Hernia in 245 Consecutive Open and Laparoscopic Urologic Surgical Procedures <i>James M. 11:30 a.m.–1:00 p.m. Sneak Peek Luncheon

5:30–7:00 p.m. Grand Opening Welcome Reception

Friday, September 8, 2006

10:00 a.m.–3:00 p.m.

Saturday, September 9, 2006

9:00 a.m.–12:00 p.m.

SOCIAL EVENT INFORMATION: DINE AROUND

THURSDAY, SEPTEMBER 7, 2006

The following restaurants are currently holding spots for the dine around evening. Please review the list of restaurants and choose the one that you would like to go to for the dine around this evening. Feel free to visit the web sites for each of these restaurants to get a better idea of what the restaurant is like and to review their current menus. A price per person for a three-course dinner — includes an appetizer, entree and a dessert and excludes alcohol — has also been provided as a general guide for you. Each restaurant has reserved a limited number of spots for our group. However, if there is a high demand for a particular restaurant, we will try our best to accommodate your request.

On the night of the dine around, staff will meet each group and walk them to the restaurant for their reservations. Reservation times have been booked and are indicated below. Please confirm the reservation time for your restaurant upon registration at the conference. Once you have arrived at the restaurant, the staff will depart and you will be on your own for the rest of the evening.

Guests will be 100% responsible for paying for their own meal at the restaurants.

CASUAL RESTAURANTS

Blue Cactus Bar & Grill

24 spots reserved

Reservation Time: 7:30 p.m.

A fun and casual dining experience surrounded by fresh, upscale Southwestern décor. Come and enjoy award-winning Margaritas and contemporary Southwestern cuisine.

Estimate \$23–\$51 CDN per person, plus taxes and 15% gratuity.

www.bluecactusbarandgrill.com

Estimate \$31–\$57 CDN per person, plus taxes and 15% gratuity

www.social.ca

SOCIAL EVENT INFORMATION: TOURS

The following tours have been reserved for guests on Friday, September 8 and Saturday, September 9, 2006. Each tour group will be accompanied by a tour director who will meet the group in the lobby of the Westin Hotel prior to tour departure. Tour descriptions and times are listed below. Guests are encouraged to pre-register for the tours that they would like to participate in when they pre-register for the conference, as spots will go quickly. On-site tour registration will take place at the hotel on Wednesday, September 6 between 5:00 – 7:00 p.m. and Thursday, September 7 between 7:00 a.m. – 4:00 p.m. and will be on a first-come, first-served basis for any empty spots. Payments can be made on-site at the hotel for any tours that have not been pre-registered and paid for.

*Please note that prices include transportation, trip director and tour/activity costs. **If minimum numbers are not met, tours will be cancelled.**

FRIDAY, SEPTEMBER 8, 2006

Tour Option # 1: Cordon Bleu Cooking Institute

Le Cordon Bleu Paris Culinary Arts Institute has evolved from a Parisian Culinary School, established in 1895, to an international culinary network with more than 26 schools in 15 countries. For more than a hundred years, people around the world have looked to Le Cordon Bleu for “la crème de la crème” in professional training in the culinary arts. If you love to cook and you love to eat, then this tour is for you. Join your host for a guided tour of the Culinary Institute, where you can see the chefs at work. Following your tour, you will be invited to observe a one-hour chocolate cooking demonstration by one of their in-house chefs. Everyone will be able to sample the results and even take home a few samples, too. Enjoy!

To learn more about the Cordon Bleu Cooking Institute, please visit their web site at www.cordonbleu.net.

Schedule:

9:00 a.m.	Meet trip director in lobby of Westin Ottawa
9:10 a.m.	Depart for Cordon Bleu
9:30 a.m.	Tour and chocolate cooking demonstration
11:30 a.m.	Re-board Bus for return transfer
11:45 a.m.	Arrive back at Westin Ottawa

Length of Tour:	2 hours
Minimum # of Participants:	20 people
Maximum # of Participants:	40 people
Cost:	\$105 USD per person

Tour Option # 2: Old English Trolley Guided City Tour

Climb aboard your very own Old English Trolley and enjoy a two-hour private tour of Ottawa. With the expert knowledge of your tour guide, you will be carried through the downtown core, along Confederation Boulevard (our ceremonial route), past monuments and many of Ottawa’s main attractions, including the Museum of Civilization, the National Gallery, Rideau Hall, the Supreme Court and much more. There will be plenty of opportunity for taking pictures.

To learn more about Ottawa, please visit the city’s web site at www.ottawa.ca.

Schedule:

9:30 a.m.	Meet trip director in lobby of Westin Ottawa and board bus or trolley
9:45 a.m.	Guided city tour begins
11:45 a.m.	End of city tour, arrive back at Westin Ottawa

Length of Tour:	2 hours
Minimum # per tour:	10 people
Maximum # per tour:	30 people
Cost:	\$70 USD per person

Tour Option # 3: Walking Tour of Downtown and Byward Market

Accompanied by your very own historically costumed guide, guests will get a personal tour of the renowned Byward Market. Comprised of many historical buildings and unique shopping venues, the Byward Market is a wonderful place to explore.

Your two-hour tour will include a short walk along the Rideau Canal, a brief stop at the Tomb of the Unknown Soldier, Parliament Hill, Majors Hill Park, the American Embassy and concluding in the Byward Market. Each participant will be given a Beavertail coupon for a Cinnamon and Sugar Beavertail (a "must try" for anyone visiting Ottawa).

*Please note, tour operates rain or shine, unless heavy thunderstorms. Please be prepared.

To learn more about Ottawa, please visit the city's web site at www.ottawa.ca.

Schedule:

9:30 a.m. Meet trip director in lobby of Westin Ottawa
9:45 a.m. Depart on walking tour
11:30 a.m. Return to Westin Ottawa

Length of Tour: 2 hours
Minimum # per tour: 10 people
Maximum # per tour: 25 people
Cost: \$40 USD per person

SATURDAY, SEPTEMBER 9, 2006

Tour Option # 1: Bicycle Tours

Bicycle tours are a great way to see Ottawa. Accompanied by a knowledgeable tour guide, you are bound to have fun exploring the city by bicycle while receiving a commentary. Two different guided tours are available: Rockcliffe Park (the only tour in Ottawa allowed to travel through this exclusive area) or the Rideau Canal. Mountain bicycles are available for all age groups. Tour route will be determined on the day of the event.

To learn more about Ottawa, please visit the city's web site at www.ottawa.ca.

Schedule:

1:15 p.m. Meet trip director in lobby of Westin hotel and walk to bicycle tour location

1:30 p.m. Acquire bicycles and helmets and meet with their tour guide(s)
1:40 p.m. Depart on bicycle tour
3:00 p.m. Arrive back at start location, guests return all equipment and walk back to hotel

Length of Tour: 2 hours
Minimum # per tour: 10 people
Maximum # per tour: 30 people
Cost: \$35 USD per person
(includes fitting/adjustment, bike, helmet, lock and map)

Tour Option # 2: Parliament Hill—Centre Block

A must see for every visitor to the Nation's Capital, the Parliament buildings are rich in history, architecture and politics. Knowledgeable, bilingual tour guides will lead your group through the Centre Block, the House of Commons and the Senate, imparting information and answering any questions that the group may have. After the tour, participants are invited to visit the magnificent Peace Tower and travel to the top for a spectacular view of the city.

Schedule:

1:15 p.m. Meet trip director in lobby of Westin Ottawa and depart on foot
1:30 p.m. Arrive at Parliament Hill, check in with group tours
1:45 p.m. Private tour of Parliament Hill—Centre Block
2:30 p.m. End of tour, guests can visit the Peace Tower and the gift shop
2:50 p.m. Group departs for return to Westin Ottawa
3:00 p.m. Arrive back at Westin Ottawa

Length of Tour: 1 hour
Minimum # per tour: 10 people
Maximum # per tour: 50 people
(recommend 25)
Cost: \$15 USD per person

* Please note that, should the House be in session, tours will not operate. Cancellation of tours, due to official functions, could be of very short notice.

To learn more about Parliament Hill, please visit their web site at www.parl.gc.ca.

SOCIAL EVENT INFORMATION

FRIDAY, SEPTEMBER 8, 2006

Canadian War Museum

7:00 – 11:00 p.m.

Welcome to Ottawa's newest museum, the Canadian War Museum. This museum is a culmination of many minds and is a tribute to all of our citizens who ever participated in a war. Designed to look like a bunker from the outside, the Canadian War Museum offers a number of fascinating exhibits inside that will truly tell the tale of the wars fought and won...and lost. In addition to entertainment, the Museum exhibits will be opened for guests to wander through on self-guided tours throughout the evening, with Museum guides located in each of the four exhibit sections to answer any questions that you may have.

Tonight, come and spend a fun night in your exclusive 1940's "Officer's Club." From delicious food, great ambiance and excellent entertainment, tonight is sure to be a night to remember! Relax with your colleagues on comfortable couches and Boogie Woogie with a real swing band. Eat at leisure at the mouth-watering buffet stations. Sidle up to the bar for a taste of 1940s cocktails. And explore the many vehicles of war in the numerous displays throughout the Lebreton Gallery. It is all here for you to enjoy!

Costumes are optional and can be rented on-site, if desired. Or . . . if you were a member of the armed services of either Canada or the United States, pull out your old uniform, polish off your medals, head out to the dance floor and do the jitter-bug, the shim sham or the lindy hop!

Costume Details

For the Officer's Club evening at the Canadian War Museum on Friday, September 8, 2006, any of your guests who would like to have a costume for the evening have a few options to choose from:

- 1) Bring their own costume with them
- 2) Pre-order a costume and/or accessories prior to arrival in Ottawa—best option
- 3) Order a costume and/or accessories on-site upon arrival (Please note that this option will not guarantee that a costume or accessories will be available)

A Bit of Background on the 1940's Clothing Era...

During this time, both men and women were smaller than they are today. As such, many of the vintage costumes from the 1940s (e.g., military dress, women's ballgowns) are only available in smaller sizes for both men and women. However, costumes that are not vintage era, but are representative of the 1940s, especially when matched with the appropriate accessories, are available in many different sizes.

Popular dress during this time included military uniforms, zoot suits, tuxedos with tails, women's long ballgowns and the shorter knee-length skirt/jacket/blouse and/or pants for women. Small hats, sequined bags, fedoras, boas, etc. were also used to dress up the outfit.

For those guests who would like to have a costume and/or accessories for this event, we have a number of options to choose from:

Men:

- zoot suits (green, navy, charcoal or blue)
- fedoras, pocket watches (rented individually)
- accessory package (Fedora, white tie, black shirt @ \$30 CDN + GST each)
- vintage military dress (will fit smaller men only)
- military dress (not specific to 1940s era)
- tuxedos with tails

Women:

- vintage ballgowns (will fit smaller women only)
- ballgowns
- lady's suits
- boas, tiaras, long gloves, hats, purses (rented individually)
- accessory package (boa, tiara, long gloves @ \$30 CDN + GST each)

If guests order a costume, accessories are included. However, they also have the option of just ordering the accessories (individually or as a package) to augment their own outfit.

Cost:

The cost for each costume ranges from \$75 CDN and upwards, depending upon the costume that is rented and whether or not it is vintage. If guests have a budget, the costume house will be able to put something together for them within their budget.

*** Please note that 8% PST and 6% GST will apply to all costume rentals and purchases.*

Notes:

1) In order to ensure the best possibility of costume availability, guests will need to pre-order their costumes. This can be done directly through Delightful Fancies & Treasures. Phone: 613 238-2058 or e-mail: delightfulfancie@netscape.net
Contact Person: Aimée. There will be no guarantee of availability of costumes. They will be rented on a first come, first served basis.

2) All costumes will be delivered to the hotel the morning of Friday, September 8, 2006 and picked up from the hotel as of 10:00 a.m., Saturday, September 9, 2006. Guests will need to ensure that all costumes are returned to the registration desk prior to 9:30 a.m. on Saturday, September 9.

3) Guests will be invoiced directly for the costume rental by Delightful Fancies & Treasures. They accept Visa, MasterCard, AMEX, Interac and cash.

A representative from the costume house can be on-site during part of the registration hours on September 6 and 7 and will be able to take last minute orders and have sample costumes on-site for guests to see.

NOTE: Drinking age at the Canadian War Museum is 19 years. There will be no exceptions.

To learn more about the Canadian War Museum, please visit their web site at www.warmuseum.ca.

REGISTER ON LINE AT WWW.AUANET.ORG/NORTHEASTERN/

SATURDAY, SEPTEMBER 9, 2006

5K Fun Run

6:15 – 9:00 a.m.

Rideau Canal

For those avid joggers and runners, this morning is for you! Come and join your colleagues on an early morning Fun Run along the banks of the Rideau Canal. Please pick up your race packages from the registration desk upon arrival at the conference. Prizes will be given to the top three male and female runners. Race begins promptly at 7:00 a.m. for runners; 7:10 a.m. for walkers.

To learn more about the Rideau Canal, please visit www.ottawa.ca. You will find information about the Rideau Canal under "Attractions" under the Visiting Ottawa drop down menu.

Tennis

1:15 – 4:30 p.m.

THE OTTAWA ATHLETIC CLUB

The Ottawa Athletic Club is a wonderful facility that plays host to both indoor and outdoor tennis courts—some of the nicest in the city. This afternoon, you will participate in a tennis game. Rackets and tennis balls can be rented. Transportation is on your own. Tennis courts have been reserved.

Schedule:

- 1:15 p.m. Meet trip director in lobby of Westin Hotel
- 1:30 p.m. Depart hotel for Ottawa Athletic Club via taxi (transportation costs not included)
- 1:45 p.m. Arrive at club
- 2:00 p.m. Game begins
- 4:00 p.m. Game ends
- 4:15 p.m. Depart Ottawa Athletic Club and return to hotel
- 4:30 p.m. Arrive back at Westin hotel

To learn more about the Ottawa Athletic Club, please visit their web site at www.ottawaathleticclub.com.

Golf Tournament

12:30 – 5:30 p.m.

CHATEAU CARTIER RESORT

This afternoon, guests are invited to participate in a golf tournament at one of Ottawa's most beautiful golf courses, nestled along the banks of the Ottawa River. Foursomes will tee off back to back, with nine-minute intervals. Tee off times will be allocated on a first-come, first-served basis. Please indicate on your registration form your handicap and who you would like to golf with; otherwise, we will create the foursomes. Prizes will be given out for a number of different competitions; including closest to the pin, best overall score (male and female), longest drive and longest putt.

Guests are invited to bring their own golf clubs or to rent from the golf course (please indicate if you require right- or left-handed clubs). Electric carts will also be provided for every pair of golfers.

Please pick up your information packages for the golf tournament from the registration desk when you arrive for the conference.

Note: For those guests who are bringing their golf clubs, your clubs will be transported to the golf course between 8:30 – 10:00 a.m. on Saturday, September 9. As such, all golf clubs must be tagged with your name when they are dropped off. Tags will be provided for those who do not have a name tag for their golf bag.

To learn more about the Chateau Cartier Resort and Golf Course, please visit their web site at www.chateaucartier.com.

10700 Bren Road West Minnetonka, MN 55343 www.AmericanMedicalSystems.com		1100 West Morgan Street Spencer, IN 47460 www.cookurological.com	
American Medical Systems is a world leader in medical devices and procedures that treat three major diseases: incontinence, erectile dysfunction and benign prostate hyperplasia. Any one of these conditions can profoundly diminish a patient's quality of life and significantly impact relationships. Our products provide a cure or reduce the incapacitating effects of these diseases, often through minimally invasive surgery.		A recognized leader worldwide, Cook Urological develops and manufactures products for endourology, ureteroscopy and incontinence management/treatment. Product lines include: ureteral stents and catheters, stone manipulation devices, dilators and access sheaths, wire guides and urethral slings.	
Astellas Pharma US, Inc.	102	The latest product innovations include; Stratisis [®] TF Tension Free Urethral Sling, for surgical treatment of SUI, Flexor [®] Ureteral Access Sheath, NCompass [®] Nitinol Stone extractors, and the Ascend [™] Ureteral Balloon Dilator.	
Three Parkway North Deerfield, IL 60015 www.us.astellas.com			
VESIcare [®] (solifenacin succinate) is a competitive muscarinic receptor antagonist and is indicated for the treatment of over-active bladder with symptoms of urge urinary incontinence, urgency and urinary frequency.			
Aureon Laboratories	209	Dendreon Corporation	112
28 Wells Avenue Yonkers, NY 1070 www.prostatepx.com		3005 1st Avenue Seattle, WA 98121 www.dendreon.com	
Aureon Laboratories' Prostate Px [™] for prostatectomy tissue and Prostate Px [™] utilizing biopsy samples stratify patient risk and predict disease severity. Aureon's Systems Pathology platform integrates histology, molecular markers, clinical features, advanced image analysis and mathematics to provide a personalized report for the risk of prostate cancer recurrence.		DiagnoCure Inc.	306
		2050 W. Rene-Levesque Boulevard West, 6th Floor Saint-Foy QE G1V 2K8 Canada www.diagnocure.com
