VESIcare helps OAB patients get drier

VESIcare® tablets
(solifenacin succinate)
From incontinence to increased control

Important Safety Information
VESIcare tablets are indicated for the treatment of overactive bladder with symptoms of urge urinary incontinence, urgency, and urinary frequency. The recommended dose of VESIcare is 5 mg once daily. If the 5-mg dose is well tolerated, the dose may be increased to 10 mg once daily.

As with other anticholinergic agents, VESIcare is contraindicated in patients with urinary retention, gastric retention, uncontrolled narrow-angle glaucoma, and in patients with hypersensitivity to the product.

As with other anticholinergic agents, VESIcare should be administered with caution to patients with bladder outflow obstruction, decreased gastrointestinal motility, controlled narrow-angle glaucoma, or reduced renal or hepatic function. Doses of VESIcare higher than 5 mg are not recommended in patients with severe renal impairment, moderate hepatic impairment, or when administered with ketoconazole or other CYP3A4 inhibitors. Use of VESIcare in patients with severe hepatic impairment is not recommended.

In placebo-controlled studies, the most common adverse events reported by patients were dry mouth (10.9%, 27.6%, 4.2%), constipation (5.4%, 13.4%, 2.9%), blurred vision (3.8%, 4.8%, 1.8%), and dyspepsia (1.4%, 3.9%, 1.0%), with VESIcare 5 mg, 10 mg, and placebo, respectively.

The overall rate of serious adverse events was 2%. For the 10-mg dose, three intestinal serious adverse events were reported (one fecal impaction, one colonic obstruction, and one intestinal obstruction). For the 5-mg dose, one case of angioneurotic edema was reported.

Please see brief summary of Prescribing Information on next page.
VESIcare® (solifenacin succinate) tablets

BRIEF SUMMARY OF PRESCRIBING INFORMATION

VESIcare is indicated for the treatment of overactive bladder with symptoms of urge urinary incontinence, urgency, and urinary frequency.

CONTRAINDICATIONS

VESIcare is contraindicated in patients with urinary retention, gastric retention, uncontrolled narrow-angle glaucoma, and in patients who have demonstrated hypersensitivity to the drug substance or other components of the product.

PRECAUTIONS

Bladder Outflow Obstruction

VESIcare, like other anticholinergic drugs, should be administered with caution to patients with clinically significant bladder outflow obstruction because of the risk of urinary retention.

Gastrointestinal Function and Decreased GI Motility

VESIcare, like other anticholinergics, should be used with caution in patients with decreased gastrointestinal motility.

Nursing Mothers

VESIcare should be used with caution in patients being treated for narrow-angle glaucoma. (See CONTRAINDICATIONS)

Drug-Drug Interaction

VESEIcare should be used with caution in patients with reduced renal function. Doses of VESIcare greater than 5 mg are not recommended in patients with severe renal impairment (CLcr < 30 mL/min). (See CLINICAL PHARMACOLOGY section of full Prescribing Information, DOSAGE AND ADMINISTRATION)

Reduced Hepatic Function

VESIcare should be used with caution in patients with reduced hepatic function. Doses of VESIcare greater than 5 mg are not recommended in patients with moderate hepatic impairment (Child-Pugh B). VESIcare is not recommended for patients with severe hepatic impairment (Child-Pugh C). (See CLINICAL PHARMACOLOGY section of full Prescribing Information, DOSAGE AND ADMINISTRATION)

Patients with Congestive or Acquired QT Prolongation

In a study of the effect of solifenacin on the QT interval in 76 healthy women (See CLINICAL PHARMACOLOGY section of full Prescribing Information, Cardiac Electrophysiology), the QT prolonging effect appeared less with solifenacin 10 mg than with 30 mg (three times the maximum recommended dose), and the effect of solifenacin 30 mg did not appear as large as that of the positive control moxifloxacin at its therapeutic dose. This observation should be considered in clinical decisions to prescribe VESIcare for patients with a known history of QT prolongation or patients who are taking medications known to prolong the QT interval.

Information for Patients

Patients should be informed that antimuscarinic agents such as VESIcare have been associated with constipation and blurred vision. Patients should be advised to contact their physician if they experience severe abdominal pain or become constipated for 3 or more days. Because VESIcare may cause blurred vision, patients should be advised to exercise caution in decisions to engage in potentially dangerous activities until the drug's effect on the ability to perform such activities has been determined. Heat prostration (due to decreased sweating) can occur when anticholinergic drugs, such as VESIcare, are used in hot environments. Patients should be advised to read the patient leaflet entitled “Patient Information, Cardiac Electrophysiology,” the QT prolonging effect in patients with congestive or acquired QT prolongation or patients who are taking medications known to prolong the QT interval.

ADVERSE REACTIONS

In placebo-controlled clinical studies, similar safety and effectiveness were observed between older (≥83 years) and younger patients (≥18 years) and younger patients (≥83 years) and younger patients (≥18 years). In placebo-controlled trials, the most common adverse events reported in patients treated with VESIcare were dry mouth and constipation and the incidence of these side effects was higher in the 10 mg group compared to the 5 mg dose group. In the four 12-week double-blind clinical trials, there were three serious intestinal adverse events in all treated with VESIcare 10 mg (one focal impaction, one colonic obstruction, and one small bowel obstruction). The overall rate of serious adverse events in the double-blind trials was 2%. Gastroenteric edema has been reported in one patient taking VESIcare 5 mg. Compared to twice-weekly treatment with VESIcare, the incidence of serious adverse events was similar in patients who remained on drug for up to 12 months. The most frequent reason for discontinuation due to an adverse event was dry mouth. 1.5% of patients reported blurred vision.

OVERDOSAGE

Acute: Overdose with VESIcare can potentially result in severe anticholinergic effects and should be treated accordingly. The highest VESIcare dose given to human volunteers was a single 100 mg dose. Chronic: Irreversible anticholinergic side effects (fixed and dilated pupils, blurred vision, failure of heart-beat to resume, tremors and dry skin) occurred on day 3 in normal volunteers taking 50 mg daily (5 times the maximum recommended therapeutic dose) and resolved within 7 days following discontinuation of drug.

Treatment of Overdosage: No causes of acute overdose have been reported, but in the event of overdose with VESIcare treat with gastric lavage and appropriate supportive measures.

Dosage and Administration

The recommended dose of VESIcare is 5 mg once daily. If the 5 mg dose is well tolerated, the dose may be increased to 10 mg once daily. VESIcare should be taken with liquids and swallowed whole. VESIcare can be administered with or without food.

Dose Adjustment in Renal Impairment

For patients with severe renal impairment (CLcr < 30 mL/min), a daily dose of VESIcare greater than 5 mg is not recommended. Use of VESIcare in patients with severe hepatic impairment (Child Pugh C) is not recommended.

Dose Adjustment with CYP3A4 Inhibitors

When administered with therapeutic doses of ketoconazole or other potent CYP3A4 inhibitors, a daily dose of VESIcare greater than 5 mg is not recommended.

CONTINUING MEDICAL EDUCATION

Continuing Medical Education (CME) Accreditation

The American Urological Association Education and Research, Inc. (AUAER) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The AUAER takes responsibility for the content, quality and scientific integrity of this CME activity.

Credit Designation

The American Urological Association designates this educational activity for a maximum of 19.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

AUAER Disclosure Policy

As a provider accredited by the Accreditation Council for Continuing Medical Education (ACCME), the AUAER must ensure balance, independence, objectivity and scientific rigor in all its activities.

All faculty participating in an educational activity provided by the AUAER are required to disclose to the audience any relevant financial relationships with any commercial interest to the provider. The intent of this disclosure is not to prevent faculty with relevant financial relationships from serving as faculty, but rather to provide members of the audience with information on which they can make their own judgments. The AUAER must resolve any conflicts of interest prior to the commencement of the educational activity. It remains for the audience to determine if the faculty’s relationships may influence the educational content with regard to exposition or conclusion. When unlabeled or unapproved uses are discussed, these are also indicated.

Unlabeled or Unapproved Use of Drugs or Devices

It is the policy of the AUAER to require the disclosure of all references to unlabeled or unapproved uses or drugs or devices prior to the presentation of educational content. The audience is advised that this continuing medical education activity may contain reference(s) to unlabeled or unapproved uses of drugs or devices. Please consult the prescribing information for full disclosure of approved uses.

Disclaimer

The opinions and recommendations expressed by faculty, authors and other experts whose input is included in this program are their own and do not necessarily represent the viewpoint of the AUAER.

Evidence Based Content

As a provider of continuing medical education accredited by the ACCME, it is the policy of the AUAER to review and certify that the content contained in this CME activity is valid, fair, balanced, scientifically rigorous and free of commercial bias.

Special Assistance

We encourage participation by all individuals. If you have a disability, advance notification at least 10 days prior to the activity of any special needs will help us better serve you. Call 1-800-908-9414 if you require special assistance to fully participate in the meeting.

NORTHEASTERN SECTION
EDUCATION & RESEARCH FUND

The purpose of the Northeastern Section of the American Urological Association (NS-AUA) Foundation is to operate exclusively for educational, scientific and charitable purposes, including, but not by way of limitation, to foster, support and conduct education (including education of the general public) and research in the field of urology.

The NS-AUA started funding research in 1995 through a grant from Searle Canada and Searle USA. The Research and Education Fund was established to assure the membership of the NS-AUA continuing excellence in research and educational activity within the Section. The NS-AUA Scholarship program was established in 1998 to provide financial scholarships to support research and educational projects. The Section strives to offer up to two scholarship awards annually. These Young Investigator Awards provide financial assistance to a researcher in basic or clinical sciences related to urology, and to acquiring, developing or improving his or her knowledge and skills in a specific aspect of the specialty. In all, 18 researchers have been awarded research scholarships.

Through the generosity of our Section members and corporate supporters, the Research and Education Fund continues to grow. We gratefully acknowledge and thank:

Abbott
Abbott – Canada
Amgen Inc.
Astellas Pharma US, Inc.
AstraZeneca Canada Inc.
AstraZeneca Pharmaceuticals LP
Bayer HealthCare Pharmaceuticals
Bristol-Myers Squibb
Cook (Canada) Inc.
Cook Urological Incorporated
Eli Lilly and Company
Flarshem/Mallinckrodt
GlaxoSmithKline
Gyrus ACMI
Healthtronic, Inc.
Indevus Pharmaceuticals, Inc.
Janssen-Ortho Inc.
Karl Storz Endoscopy — America, Inc.
Karl Storz Endoscopy Canada Ltd.
Karl Storz Lithotripsy — America, Inc.
Lilly ICOS LLC
Merck US Human Health
Merck Frost Canada Ltd.
Novartis Oncology
Novartis Pharmaceuticals Corporation
NS-AUA Members
Ortho-McNeil
Pfizer Inc.
Pfizer Canada
Praecis Pharmaceuticals Incorporated
Procter & Gamble Pharmaceuticals
sanofi-aventis Group
Schering Oncology/Biotech
TAP Pharmaceutical Inc

The Northeastern Section thanks the following companies for providing educational grants in support of the 2007 Annual Meeting:

Eli Lilly and Company
GPC Biotech, Inc.
Novartis Pharmaceuticals Corporation
PriCara, a Unit of Ortho-McNeil, Inc. administered by Ortho-McNeil Janssen Scientific Affairs, LLC
Pfizer Inc.
sanofi-aventis U.S.

and the following companies for their general support of the meeting:

Astellas Pharma US, Inc.
AstraZeneca Canada Inc.
Gyrus ACMI
Pfizer Inc.
sanofi-aventis, U.S.

*Deceased
Dr. George E. Slotkin

Excerpt from the Waterways chapter: “No history of the Northeastern Section (NS-AUA) is complete without a short biography of this indefatigable urologist.

Dr. George E. Slotkin (1890-1971) was born in New York City but soon moved with his parents to Buffalo, NY, where he spent his professional career. We acknowledge him today as a founder, the first benefactor, and the first historian of the NS-AUA, but there is more to his story.

If one were to hold up a mirror to the changing face of urology in the first half of the 20th century, it would be well reflected with an image of George E. Slotkin. A graduate of the University of Buffalo Medical School, Dr. Slotkin did postgraduate work at the New York City Post Graduate Hospital, the University of Vienna and the University of Budapest. In 1918, he became a clinical professor of urology at the University of Buffalo. During the late 1940s, his clinical interest was tuberculosis of the urinary tract, which he treated with chalacomagoric acid. Even though results of his work in this area remain inconclusive, other fruits of his career do not. Friends and colleagues of his time were fond of saying, “George Slotkin has three loves: urology, his wife Helene, and his Rolls Royce...not necessarily in that order!” His early work, “Nephrophtosis, a Resurrected Disease,” was published in The Urologic and Cutaneous Review in 1938. His later work with E.A. Mercer, “Case of epispadias with a double urethra,” was published in The Journal of Urology® in 1953.

Obviously, this change in his work reflects the change in urology from its early focus on genitourinary disease to its present focus as a surgical specialty. Dr. Slotkin was named Clinical Professor of Urology Emeritus in 1954 by the University of Buffalo Medical School and continued his private practice until 1964. After retirement, he continued to write, contributing a fascinating chapter about the history of the NS-AUA to History of Urology. It is a priceless, logical record of carefully researched facts.

His obituary notice implies that he may have been the first American invited to join the Canadian Urological Association. Dr. and Mrs. Slotkin did not have any children; his estate included a generous bequest to the NS-AUA to provide funding for invited guest speakers at our annual meetings.”

Don’t miss the Slotkin Lecture on Urgency and Flow in the Works of Robert Schumann

A unique experience, combining urology with classical music. Spouses welcome.

Darius Jehan Bagli, M.D.C.M., F.R.C.S.C., F.A.A.P., F.A.C.S. Associate Professor of Surgery, Attending Urologist
Associate Scientist, Division of Developmental and Stem Cell Biology, The Hospital for Sick Children, Toronto, Ontario Canada

Robert Bakos, M.D., Neurosurgeon, Associate Professor of Surgery, University of Rochester, Rochester, NY
Christopher L. Amling, M.D.
Professor and Director, Division of Urology
University of Alabama at Birmingham
Birmingham, AL

Dr. Amling is a cum laude graduate of the Oregon Health Sciences University, School of Medicine and completed his urology residency training at Duke University Medical Center. He then completed a fellowship in urologic oncology at the Mayo Clinic in Rochester, MN. Following medical school he was commissioned a Lieutenant in the United States Navy Medical Corps and was winged a Naval Flight Surgeon, serving for three years with a Marine Air Group in Kaneohe Bay, HI. After fellowship, he was assigned to the Naval Medical Center in San Diego, CA where he served as residency program director and chairman of the Department of Urology. After attaining the rank of captain, he retired with 20 years of active service in 2005 and assumed the position of professor and director, Division of Urology, University of Alabama at Birmingham. Dr. Amling has been actively involved in urology resident education, designing and implemented a web-based resident evaluation system currently used by most urology residency programs. He currently serves on the Residency Review Committee for Urology, as fellowship director for the Society of Urologic Oncologists, secretary-treasurer for the Society of University Urologists, on the Editorial Board of the The Journal of Urology® and Prostate Cancer and Prostatic Diseases, and as the AUA Media Relations Committee spokesman on prostate cancer. Dr. Amling has published and lectured regularly on various topics in urologic oncology, particularly prostate cancer. He has published over 100 peer-reviewed articles and several book chapters and has been an associate or principle investigator on numerous clinical studies related to the detection, diagnosis and treatment of urologic malignancies.

Darius Jehan Bagli, M.D.

Director of Urology Research
Associate Professor of Surgery
Associate Scientist in Developmental & Stem Cell Biology
The Hospital for Sick Children, University of Toronto
Toronto, Ontario Canada

Dr. Bagli began piano studies at age four and holds L.Mus. and M.D. degrees from McGill University. In 2002, he participated in the Van Cliburn International Piano Competition for Outstanding Amateurs in Fort Worth, TX. Dr. Bagli has performed at several University events in Canada and the United States.

Dr. Bagli is also a pediatric urologist, director of urology research and an associate professor of surgery and associate scientist in developmental and stem cell biology at the Hospital For Sick Children, University of Toronto. Dr. Bagli completed his residency at the Harvard Programme in Boston, and his fellowship in pediatric urology with Dr. Michael Mitchell, M.D. at the University of Washington in Seattle. Prior to urology training, Dr. Bagli completed a three-year NIH research fellowship at Harvard in surgical immunology/oncology. His laboratory studies bladder smooth muscle cell and molecular biology, with a focus on mechanotrasduction and cell-matrix interactions underlying obstructive uropathy. His research is also examining the role of stem and precusor cell biology in a regenerative medicine context for urologic disease. Dr. Bagli and his team have won numerous research prizes in urology, and have held peer reviewed funding from the Canadian Institutes of health Research (CIHR), the National Institutes of Health (NIH), the March of Dimes and the American Urological Association Foundation (AUAF), and supervised numerous American Foundation of Urologic Disease fellows and university graduate students. He has published extensively in the clinical areas of vesicoureteral reflex, hypospadias and bladder muscle disease in both the urology and basic science literature. Dr. Bagli also has interests in research ethics and served on the SickKids Hospital Institutional Review Board for nine years as the surgery representative and as its associate chair.

Robert Bakos, M.D.

Neurosurgeon
Associate Professor of Surgery
University of Rochester
Rochester, NY

Dr. Bakos is joined by Dr. Robert Bakos, a neurosurgeon and associate professor of surgery at the University of Rochester. Dr. Bakos’ medical education includes degrees from Ohio University and St. Louis University of Medicine. Dr. Bakos completed residencies in general surgery and neurosurgery at the University of Rochester. In 1981, Dr. Bakos became chief of neurosurgery at Highland Hospital, and he is presently chief of functional and stereotactic neurosurgery at the University of Rochester.

As a youth, Dr. Bakos spent nine years at the Cleveland Music Settlement, the teaching institution of the Cleveland Orchestra, where he studied violin with Josef Gingold, the concertmaster of the Cleveland Orchestra, accompanied by classes in music theory and composition. His appreciation of music and knowledge of medicine has produced a keen insight into some of the world’s best-known composers and how their health affected their creativity and contributed to their deaths. His creative series on Dead German Composers and How They Got That Way has been widely enjoyed by medical and medical audiences alike, including students at Rochester’s renowned Eastman School of Music.

Guy Bogaert, M.D.

Professor of Pediatric Urology
University Hospital of Leuven
Leuven, Belgium

Guy A. Bogaert, M.D., Ph.D. is full professor of pediatric urology within the department of urology-pediatric urology at the University Hospital of Leuven, Belgium. He has held this position since 1997, the year when he returned to Belgium. From 1985-1991, he trained with Professor K.-F. Albrecht and Professor J. W. Thiouroff in Wuppertal, Germany. He then went on to become clinical instructor and finished a pediatric urology fellowship with Barry Kogan at UCSF, San Francisco (1991-1994). During his research period, he received a Feodor Lynen Stipend from the Humboldstitftung, Germany. He was scientific officer at the Albert-Ludwig University, Freiburg, Germany where he received his Ph.D. degree.

He is also the medical manager of the University Outpatient Surgery Center in Leuven (2002 - Present).

In 2004 he became the secretary of the European Society for Pediatric Urology.

2007 Invited Guest Speakers
He is a member of several societies and associations, has authored and co-authored more than 20 articles in peer-reviewed journals and has written several chapters in pediatric urology textbooks.

He is married to Stefanie and they have five children.

**Cully Carson, M.D.**

Head, Department of Urology
University of North Carolina
Chapel Hill, NC

Bio not available at time of publication.

**Balentine H. Carter, M.D.**

Johns Hopkins Hospital
Baltimore, MD

Dr. Carter obtained a B.S. from Furman University and in 2005 received the distinguished alumni award from Furman University. He attended medical school at the Medical University of SC and trained in surgery and urology at the New York Hospital-Cornell Medical Center. He then spent two years at Johns Hopkins (Brady Urological Institute) as a research fellow in the Department of Urology before joining the clinical faculty in 1989.

Dr. Carter’s main area of interest is the development of prostate disease that occurs so commonly in the aging male (benign and malignant). Collaborating with scientists at the Baltimore Longitudinal Study of Aging (BLSA) which is part of the National Institute of Aging, he has focused his efforts on the discovery of factors that influence the development of prostate disease with age. A better description of the prostate aging process and potential factors that influence this process has been obtained by studying the relationship of changes in prostate size, urinary symptoms, and blood chemistry changes that occur together in men who develop prostate disease. These longitudinal studies have allowed direct comparisons of men who have and have not developed prostate disease with age (case-control studies) so that potential factors of importance in disease development can be evaluated. Through collaboration with the BLSA Dr. Carter and colleagues described the changes in PSA that occur with age and in men with prostate disease, and pioneered the concept of PSA velocity.

Another area of interest has been the management of small volume prostate cancers with careful monitoring and no immediate treatment. Under the direction of Dr. Carter a monitoring program for men suspected of harboring small prostate cancers was initiated in 1995. Preliminary results continue to suggest that these men do not loose the window of opportunity for cure if careful selection occurs initially and men undergo close surveillance.

**Inderbir Singh Gill, M.D.**

Vice Chairman
Professor and Head, Section of Laparoscopic and Robotic Surgery
Director, Center for Advanced Study
Glickman Urological Institute, Cleveland Clinic Foundation, Cleveland, OH

Dr. Gill completed his medical school, general surgery training, and urology residency in India before moving to the United States in 1989 where he completed a fellowship in renal transplantation and renovascular surgery at the Cleveland Clinic, and another urology residency at the University of Kentucky Medical Center, Lexington, KY.

Since 1997, Dr. Gill has been head, Section of Laparoscopic and Robotic Surgery at the Cleveland Clinic Glickman Urological Institute. From 2001-2003, Dr. Gill was director, The Minimally Invasive Surgery Center at the Cleveland Clinic. In 2005, Dr. Gill was inducted an honorary fellow of the Royal College of Surgeons of England. Dr. Gill was the president, 24th World Congress of Endourology and ESWL 2006. He is currently vice chairman and professor of surgery at the Cleveland Clinic Lerner School of Medicine.

Dr. Gill has published over 350 original papers and book chapters, and has been invited as visiting professor to over 200 institutions worldwide.

Having amassed the world’s largest urologic experience with over 3,000 major laparoscopic and robotic surgery cases in the United States, Dr. Gill’s primary focus is on advancing the frontiers of urologic oncologic laparoscopy and robotic surgery. He performed the world’s first laparoscopic radical cystectomy and orthotopic ileal neobladder for bladder cancer, the entire procedure performed completely intracorporeally. Dr. Gill has been a pioneer in laparoscopic surgery for kidney cancer, and has the largest experience in minimally invasive nephron-sparing surgery for renal cancer, including partial nephrectomy and renal cryoablation, techniques that he has pioneered, and now performed in over 750 patients. Dr. Gill’s team is widely recognized as one of the foremost laparoscopic unit in the field of urology.

**Jean Volny Joseph, M.D.**

Associate Professor of Urology and Oncology
University of Rochester Medical School
Rochester, NY

Jean V. Joseph, M.D., M.B.A., is an associate professor of urology and oncology at the University of Rochester Medical Center. A graduate of the University of Rochester School of Medicine, Dr. Joseph received post graduate training in reconstructive and laparoscopic surgery at the Institute of Urology, University College London, and at the Institute Mutualiste Montsouris in Paris. Dr. Joseph has authored numerous articles and book chapters on minimally invasive surgery and also co-edited a book entitled Minimally Invasive Surgery: Looking Through the Key Hole. Dr. Joseph’s clinical interests have focused on improving outcomes of patients treated surgically for prostate cancer, using laparoscopic and robotic technology. He is currently head of the Section of Urologic Laparoscopy and Robotic Surgery and director of the fellowship in Endourology, Laparoscopy and Robotic Surgery at the University of Rochester Medical Center.

**Tracey L. Krupski, M.D.**

Assistant Professor
Duke Urology of Raleigh
Raleigh, NC

During residency at the University of Virginia, Dr. Tracey Krupski realized that, to her, a career in academic urology is comprised of being a skilled urologic surgeon, a methodologically sound researcher, and an approachable educator. To achieve this, she created her own fellowship at UCLA. After a year a clinical oncology with Dr. Jean B. de Kernion she obtained a Masters in Public Health (MPH) in health services research during her two years under the tutelage of Dr. Mark Litwin.
At the conclusion of this fellowship, she joined the faculty at Duke University. She is an assistant professor within Duke University Health System but lives and works in the community of Wake County. Her clinical research interest is management of bone complications in prostate cancer. Her academic research interest is in the psychosocial aspects of urologic health, particularly the sexual health of the couple following prostate cancer treatment. Further, the psychosocial needs of the disadvantaged are very different from those of the peer-reviewed literature, which consists predominately of affluent white men. There is a great need to develop educational materials for all levels of literacy and quality of life instruments that are both culturally and literacy sensitive to disadvantaged groups.

William Marston Linehan, M.D.
Chief of Urologic Surgery
Head of Urologic Oncology Branch
Center for Cancer Research, National Cancer Institute
National Institutes of Health
Bethesda, MD

W. Marston Linehan, M.D. is chief of urologic surgery and head of the Urologic Oncology Branch, Center for Cancer Research, at the National Cancer Institute, National Institutes of Health, Bethesda, MD. He has had a long standing interest in the genetic basis of cancer of the kidney. By studying families with kidney cancer, he and his colleagues identified the VHL gene (von Hippel-Lindau, clear cell renal carcinoma), the gene for Hereditary Papillary Renal Carcinoma (c-Met oncogene, type I papillary renal carcinoma) and the BHD gene (Birt Hogg Dubé syndrome, chromophobe renal carcinoma) and described the germ line fumarate hydratase mutations in the North American families with hereditary leiomyomatosis renal cell carcinoma (HLRCC). Mutations in the VHL gene have been found in the majority of sporadic (non-hereditary) kidney cancer, the 6th leading cause of cancer death in the United States. Identification of kidney cancer genes has provided the basis for the development of new therapeutic strategies for the different types of kidney cancer based on understanding the specific molecular pathways affected by each kidney cancer gene. Linehan and his colleagues have developed and improved methods for clinical management of kidney cancer associated with the hereditary forms of kidney cancer, including von Hippel-Lindau, Hereditary Papillary Renal Carcinoma and Birt Hogg Dubé syndrome and HLRCC.

Dr. Linehan has published more than 480 manuscripts and is currently on the editorial board of seven journals. He has received numerous honors including the NIH Director’s Award for discovery of the VHL kidney cancer gene, the Gold Cystoscopy Award and the Distinguished Contribution Award from the American Urological Association, the SUO Medal from the Society of Urologic Oncology and the Barringer Medal from the American Association of Genitourinary Surgeons. He is past-president of the Society of Urologic Oncology.

Kevin McVary, M.D.
Professor of Urology
Northwestern University Feinberg School of Medicine
Chicago, IL

Kevin T. McVary, M.D., is professor of urology at Northwestern University Feinberg School of Medicine in Chicago, IL. His hospital appointments include the following positions: director, sexual dysfunction, Division of Urology and director, sexual dysfunction, Department of Urology at Northwestern Memorial Hospital; all of which are also in Chicago.

Dr. McVary received his medical degree at Northwestern University Medical School. He completed his postdoctoral training at Northwestern Memorial Hospital, including an internship and residency in general surgery as well as a residency in urology and was chief resident in urology at the hospital. In addition, he was granted a Riba Urology Research Fellowship under the direction of Chung Lee, Ph.D. at Northwestern.

An experienced investigator in prostatic disorders and erectile dysfunction, Dr. McVary is currently and has recently been principal investigator for more than 50 clinical trials.

Dr. McVary’s research has generated more than 100 publications including referenced journal articles, books, book chapters and abstracts. His work has appeared in prominent journals such as The Journal of Urology®, New England Journal of Medicine, International Journal of Impotence Research and Urology. Among his editorial responsibilities is consultant for the Journal of Andrology, The Journal of Urology®, Urology, Journal of Investigative Urology, Current Opinion in Urology, Prostate Diseases and book reviewer for the The Journal of Urology®.

A fellow of the American College of Surgeons and diplomat of the American Urological Association, Dr. McVary is also an active member of many other organizations.

Dr. J. Curtis Nickel M.D., FRCSC
Professor, Department of Urology
Queen’s University
Staff Urologist, Department of Urology
Kingston General and Hotel Dieu Hospitals
Kingston, New Brunswick, Canada

Dr. Nickel’s research has been in the fields of inflammatory diseases of the urinary tract and benign diseases of the prostate gland. He has written over 350 scientific papers, reviews, chapters and books on these subjects and is funded in part by five concurrent grants from the U.S. NIH/NIDDK. He has given invited lectures in over thirty-five countries. He is on the scientific or review panel of numerous granting agencies, a regular reviewer for over a dozen urological and medical journals, on the editorial board of eight national and international urological journals, and is a member of the many national and international research consortia.

Allan B. Patrick, M.D.
Head, Department of Urology
River Valley Health
Fredericton, Ontario

Dr. Allan Patrick was born in Ontario but has lived most of his life in Atlantic Canada. He received his BA in Biology and Psychology from the University of New Brunswick and his M.D. and Urology Residency from Dalhousie University in Halifax. He received awards for volunteer work and extracurricular activities from both universities. He practices in Fredericton, New Brunswick and has been involved in organized medicine at the local, Provincial and National levels. He was long term head of the Dr. Everett Chalmers Department of Urology and head of urology, River Valley Health. He has been actively involved in clinical trials for over 10 years and has had numerous publications, including a chapter in the recently released Supportive Care of the Urology Patient.

He lives in Fredericton with his wife Shelley and three children Rebecca, Ian and Katherine.
Daniel P. Petrylak, M.D.

Associate Professor of Medicine
New York-Presbyterian Hospital
Columbia University Medical Center
New York, NY

Bio not available at time of publication.

Paul F. Schellhammer, M.D.

Program Director
Professor of Urology
Virginia Prostate Center
Eastern Virginia Medical School
Norfolk, VA

Dr. Schellhammer is the program director of the Virginia Prostate Center and professor of urology at Eastern Virginia Medical School and a partner in Devine-Tidewater Urology. He earned his medical degree from Cornell Medical College in New York in 1966. Dr. Schellhammer has served as president of the American Board of Urology, Society of Urologic Oncology and Mid-Atlantic Section of the American Urological Association and is currently a member of AUA’s Program Guidelines Committee’s Bladder Cancer Update Panel. Dr. Schellhammer has authored more than 250 peer-reviewed articles as well as over 40 books and chapters. He is on the editorial board of Urology and Urologic Oncology. Dr. Schellhammer has been a member of the AUA since 1977 and is AUA’s current President.

Ridwan Shabsigh, M.D.

Associate Professor of Urology
Director, New York Center for Human Sexuality
Brooklyn, NY

Dr. Ridwan Shabsigh is a member of numerous professional societies including the American Urological Association, the American College of Surgeons, the Society of University Urologists, and is a founding member of the Society for the Study of Impotence (currently the Sexual Medicine Society of North America). Under his direction, the New York Center for Human Sexuality has been very active in providing clinical services for the diagnosis and treatment of various types of male and female sexual dysfunctions. Dr. Shabsigh is also the recipient of several research grants to conduct studies in erectile dysfunction, premature ejaculation, hypogonadism (low testosterone), female sexual dysfunction and Peyronie's disease.

In 1993 he was the winner of an American Foundation of Urologic Disease young investigator award for urologic research. Under his direction, several novel research projects are being conducted at the Columbia Urology Research Laboratory. Dr. Shabsigh has published many scientific articles and book chapters and has given numerous lectures domestically and internationally. He is a widely published author of many articles that have appeared in the New England Journal of Medicine, The Journal of Urology, Urology, British Journal of Urology, Contemporary Urology and others. He is the author of a recently-published patient-education book on ED: Back to Great Sex, Overcome ED and Reclaim Lost Intimacy.

William Bruce Singleton, M.D.

Associate Professor
Director, Minimally Invasive Urologic Surgery
University of Louisville
Shreveport, LA

Dr. Singleton is an associate professor of urology and radiology and director of the section of minimally invasive urologic surgery. He has been a course director at the AUA Annual Meeting for renal ablation. He has also been co-director of the annual ablation technology meeting for the past four years. He has extensive experience in renal cryoablation both in clinical work and laboratory investigations. He has served as technical advisor to the AUA for renal cryoablation.

Sandip Vasavada, M.D.

Urologic Director, Center for Female Pelvic Medicine and Reconstructive Surgery
Cleveland Clinic Foundation
Cleveland, OH

Dr. Sandip Vasavada serves as the urologic director, Center for Female Pelvic Medicine and Reconstructive Surgery at the Cleveland Clinic Foundation within the Glickman Urological Institute. Together with his other colleagues he helps represent one of the largest centers for female pelvic medicine in the country. He is also associate professor of surgery (urology) at the Cleveland Clinic Lerner College of Medicine.

Dr. Vasavada completed his medical school training in the competitive six year combined BS/MD program at the Northeastern Ohio Universities College of Medicine in 1991. Upon graduation, he began his urology residency at the Cleveland Clinic Foundation and graduated the residency in 1997. Subsequently, he began a fellowship in female urology, neurourology and reconstruction at the UCLA School of Medicine in Los Angeles, CA. He then took a position as assistant professor of urology at the Thomas Jefferson Medical College in Philadelphia prior to returning to Cleveland in 2001. Dr. Vasavada has published numerous manuscripts and book chapters in the area of voiding dysfunction and urinary incontinence and has been named to “Top Docs” list in Philadelphia and Cleveland magazines. He has published his first textbook entitled Female Urology, Urogynecology and Voiding Dysfunction with co-editors Peter Sand, M.D., Shlomo Raz, M.D. and Rodney Appel, M.D. (Marcel-Dekker, NY 2005) and is in the process of completing his second book on female urology and pelvic organ prolapse with co-author Howard Goldman, M.D. (Humana Publishing, 2007). He has authored over 65 manuscripts and over 25 book chapters and numerous abstracts and videos and has lectured and demonstrated surgical techniques around the world. Dr. Vasavada is a reviewer for seven major journals in the field of urology and/or voiding dysfunction. Dr. Vasavada’s main clinical interests lie in the area of urinary incontinence, pelvic organ prolapse and complex reconstruction of the lower urinary tract. His current research interests are in the field of refractory bladder overactivity and neuromodulation. Dr. Vasavada is part of a $7.8 million grant from the State of Ohio (Biomedical Research Technology Transfer (BRTT) grant) aiming to study the effects of dorsal genital nerve stimulation on bladder overactivity. He is also part of three NIH-SBIR grants aiming to evaluate neuromodulation in complex patient subgroups.
Publications of Abstracts – 2007

The Board of Directors of the NS-AUA is pleased to announce that all accepted abstracts (podium and poster presentations) of the 2007 annual meeting have been published in the September issue of The Canadian Urological Association Journal (CUAJ) with support from GYRUS ACMI. A copy of this issue will be distributed when you arrive at the registration desk.

On behalf of the authors, the executive officers extend its sincerest thanks and appreciation to the CUAJ and GYRUS ACMI for their generosity. CUAJ is the only journal owned and officially endorsed by the Canadian Urological Association. The first issue was published in March 2007. Four issues will be published in 2007 and, as of 2008, the Journal will be published six times a year.

The Journal is working toward indexation on MEDLINE and Index Medicus. Once this is achieved, indexing will be retroactive to the first issue. The Journal welcomes your articles or manuscripts for review and consideration for publication. For additional information on submitting manuscripts, or subscription information, contact: Editor-in-Chief, Laurence H. Klotz, M.D., F.R.C.S.C.

REGISTRATION HOURS
Convention Center
Thursday: 7:00 a.m. – 5:00 p.m.
Friday: 7:00 a.m. – 5:00 p.m.
Saturday: 7:00 – 10:00 a.m.

EXHIBIT HALL HOURS
Grand Lilac Ballroom (Convention Center)
Thursday: 12:00 – 1:30 p.m.
6:00 – 7:30 p.m.
Friday: 10:00 a.m. – 3:30 p.m.
Saturday: 9:00 – 10:30 a.m.

SPOUSE LOUNGE HOURS
Regency Club Lounge (Hyatt Regency)
Thursday: 2:00 – 4:00 p.m.
Friday: 8:00 – 10:00 a.m.
Saturday: 8:00 – 10:00 a.m.

SPEAKER READY ROOM
Aqueduct AB (Convention Center)
Thursday: 7:00 a.m. – 6:00 p.m.
Friday: 7:00 a.m. – 6:00 p.m.
Saturday: 7:00 a.m. – 2:00 p.m.
Sunday: 7:00 – 11:30 a.m. (Hyatt)
Scientific Program
Schedule Subject to Change

All lectures, sessions and events are held in the Convention Center unless otherwise noted.

Learning Objectives: At the conclusion of the 2007 Annual Meeting, participants should be able to:
- describe recent developments in the medical and surgical management of urology patients
- identify new technologies for the treatment of urologic problems
- outline various male mental health disorders as they pertain to sexual health and discuss therapy
- analyze the potential threats to urologic practice and specify possible solutions

Thursday, September 6, 2007
9:00 a.m. – 12:00 p.m. Cutting Edge Coding for 2007
M. Ray Painter, M.D., F.A.C.S.
Stephanie Stinchcomb, C.P.C., C.C.S.-P., A.C.S.-UR, AUA Coding & Reimbursement Coordinator
Learn more about these important coding topics:
- Medicare Changes Including the Physician Quality Reporting Initiative (PQRI)
- New Codes for ICD-9 and CPT
- Procedural Coding Challenges
- Evaluation and Management Services
- Explaining Modifiers

12:00 – 1:30 p.m. Sneak Peek Luncheon in Exhibit Hall
1:30 – 3:30 p.m. State-of-the-Art Lectures 1-4
Moderator: Ronald Kaufman, M.D.
1:30 – 2:00 p.m. State-of-the-Art Lecture - I
Current Controversies and Management of Lower Urinary Tract Symptoms (LUTS)
Kevin McVary, M.D.
2:00 – 2:30 p.m. State-of-the-Art Lecture - II
Current Update on Surgery for Female Incontinence and Vaginal Reconstruction
Sandip Vasavada, M.D.
2:30 – 3:00 p.m. State-of-the-Art Lecture - III
Current Management of Bone Health for the Urologist
Tracey L. Krupski, M.D.
3:00 – 3:30 p.m. State-of-the-Art Lecture - IV
Current Treatments for Metastatic Renal Cell Cancer
William Marston Linehan, M.D.
3:30 – 4:00 p.m. Break
4:00 – 6:00 p.m. State-of-the-Art Lectures 5-8
Moderator: Ronald Kaufman, M.D.
4:00 – 4:30 p.m. State-of-the-Art Lecture - V
Role of Obesity in Urology
Chris Amling, M.D.

4:30 – 5:00 p.m. State-of-the-Art Lecture - VI
Chemotherapy for Advanced and Metastatic Prostate Cancer
Dan P. Petrylak, M.D.
5:00 – 5:30 p.m. State-of-the-Art Lecture - VII
Prostatitis: Past, Present and Future!
J. Curtis Nickel, M.D.
5:30 – 6:00 p.m. State-of-the-Art Lecture - VIII
Erectile Dysfunction and the Prostate
Cully Carson, M.D.
6:00 – 7:30 p.m. Exhibit Dysfunction and the Prostate
7:30 – 11:00 p.m. Football Hall Grand Opening Welcome Reception
FRIDAY, SEPTEMBER 7, 2007
6:45 – 7:45 a.m. Residents’ Breakfast – Hyatt Regency Rochester
Current Challenges in Urology Residency Training
Christopher L. Amling, M.D.
6:30 – 7:30 a.m. Industry-sponsored Breakfast Symposium – Hyatt Regency Rochester
*This course is separate from the NS-AUA CME Program
8:00 a.m. Welcome and Introduction
Barry A. Kogan, M.D.
Northeastern Section of the AUA, President
Paul F. Schellhammer, M.D.
American Urological Association, President
8:15 – 9:00 a.m. Podium Session I – Pediatric Urology
Moderators: Ronald Rabinowitz, M.D.; Guy Bogaert, M.D.
8:15 a.m. Welcome and Introductions
8:16 a.m. 1. Long-term Urological Follow-up of Multicystic Dysplastic Kidneys: Is It Still Necessary In 2007?
Karen J. Psooy, M.D.
University of Manitoba, Winnipeg, MB, Canada
8:25 a.m. 2. Single and Multiple Layer Small Intestine Submucosa in the Repair of Severe Chordee and Complicated Hypospadias
Matthew H. Hayn, M.D.; Mark F. Bellinger, M.D. and Francis X. Schneck, M.D.
University of Pittsburgh, Pittsburgh, PA, USA
8:32 a.m. 3. Is Presteniting Necessary for Upper Tract Ureteroscopic Access in Prepubertal Children?
Anthony T. Corcoran, M.D.; Dev Mally, B.S.; Marc C. Smaldone, M.D.; Mark F. Bellinger, M.D.; Francis X. Schneck, M.D.; Steven G. Docimo, M.D. and Hsi-Yang Wu, M.D.
University of Pittsburgh Medical Center, Pittsburgh, PA, USA
8:39 a.m. 4. Comparative Analysis of Ventral Penile Lengthening Versus Dorsal Plication for Severe Ventral Curvature: Single Center Experience with 100 Cases
Luis H. Braga, M.D.; Darius J. Bagli, M.D.; Joao L. Pippi Sale, M.D.; Armando J. Lorenzo,
8:46 a.m.  
5. Evaluation of Flap Perfusion During Complex Hypospadias Repair Using Near Infrared Fluorescence of Intravenous Indocyanine Green

University of Rochester Medical Center, Rochester, NY, USA

8:53 a.m.  
6. Fetal MRI Demonstrates Similar Volume Evolution but Different Shape in Right and Left Kidneys During Evolution

Guy Bogaert, M.D.; Joke Meersschae, M.D.; Mieke Cannie, M.D.; Frederik de Keyzer, M.D.; Valerie Neirynck, M.D. and Steven Dymarkowski, M.D.

University Hospital Gaethusberg, Leuven, Belgium

9:00 a.m.  
Adjourn

9:00 — 9:40 a.m.  
Guest Lecturer: Reflux

Guy Bogaert, M.D.

9:40 — 10:15 a.m.  
Point Counterpoint: Management of Small Renal Mass A) Ablation B) Laparoscopic Excision C) Observation

Panelists: William Bruce Singleton, M.D.; Inderbir Singh Gill MD, M.Ch.; Raj Som Pruthi, M.D.

Moderator: Bidar Mian, M.D.

10:15 — 10:45 a.m.  
Break in Exhibit Hall

10:45 — 11:30 a.m.  
Case Management with Audience Participation

Chris Amling, M.D.

11:30 a.m.—12:00 p.m.  
Guest Lecturer: Genetics of Urologic Cancers

William Marston Linehan, M.D.

12:00 — 1:00 p.m.  
Lunch in Exhibit Hall

1:00 — 1:30 p.m.  
Guest Lecturer: Laparoscopic and Robotic Urology: Past, Present and Future

Inderbir Singh Gill, M.D., M.Ch.

1:30 — 2:30 p.m.  
Moderated Poster Session I

Moderators: Gabriel Haas, M.D.; Anne-Marie Houle, M.D.

1:30 p.m.  
Welcome and Introductions

1:33 p.m.  
P1. Protective Effects of NSAIDS on Prostate Cancer Progression: A Population-based Study

D. Robert Siemans, M.D., F.R.C.S.C.; David Stock and Patti A. Groome, Ph.D.

Queen’s University, Kingston, ON, Canada

1:36 p.m.  
P2. Drainage Characteristics of the Horseshoe Kidney: What is Typical?

Anthony T. Corcoran, M.D.; Daniel A. Pryma, M.D.; Marc C. Smaldone, M.D. and Timothy D. Averch, M.D.

University of Pittsburgh Medical Center, Pittsburgh, PA, USA

1:39 p.m.  
P3. Withdrawn

1:42 p.m.  
P4. Intermittent Torsion of the Spermatic Cord Has High Risk of Acute Testicular Infarction

Matthew H. Hayn, M.D.; Mark F. Bellinger, M.D. and Francis X. Schneck, M.D.

University of Pittsburgh, Pittsburgh, PA, USA

1:45 p.m.  
P5. Significance of Initial Meatal Position in Proximal Hypospadias: A Multivariable Analysis of Factors Associated with Complications After Transverse Island Flap (TVIF) Repair in 137 Patients

Luis H. Braga, M.D.; Armando J. Lorenzo, M.D.; Joao L. Pippi Salle, M.D.; Wald A. Farhat, M.D.; Antoine E. Khoury, M.D. and Darius J. Bagli, M.D.

The Hospital for Sick Children, Toronto, ON, Canada

1:48 p.m.  
P6. Third Trimester Ultrasound of Fetal Pyelectasis: Predictor for Postnatal Surgery

Loralei L. Thornburg, M.D.; Eva K. Pressman, M.D.; Satya Chelamkuri; William C. Hulbert, M.D.; Ronald Rabinowitz, M.D. and Robert Mevorach, M.D.

University of Rochester, Rochester, NY, USA

2:00 p.m.  
P7. Trospium Chloride Extended Release 60 Mg Once Daily is Effective for the Improvement and Quality of Life in Subjects with Overactive Bladder Syndrome

Scott MacDiarmid, M.D.; David Staskin, M.D.; Roger Dmochowski, M.D.; Norman Zinner, M.D. and Peter Sand, M.D.

1. Alliance Urology Specialists, Greensboro, NC, USA; 2. New York Presbyterian Hospital, Weill-Cornell Medical College, New York, NY, USA; 3. Vanderbilt University School of Medicine, Nashville, TN USA; 4. Western Clinical Research, Torrance, CA, USA; 5. Evanston Continence Center, Feinberg School of Medicine, Northwestern University, Chicago, IL, USA

2:03 p.m.  
P8. Therapy Related Senescence Response in Prostate Cancer Cells

Ross Bauer, M.D.; Igor Roninson, Ph.D.; Olga Berezovska, Ph.D.; Eugenia Broude, Ph.D.; Gennadi Glinsky, M.D.; Ph.D. and Badar Milan, M.D.

1. Albany Medical Center, Albany, NY, USA; 2. Ordway Research Institute, Albany, NY, USA

2:07 p.m.  
P9. Protein Oxidation as a Novel Biomarker of Bladder Decompensation: Cellular and Sub-cellular Protein Oxidation During the Transition from Compensated to Decompensated Bladder Function

Carmin Kalofin, M.D.; Robert Levin, Ph.D.; Paul Neumann; Anita Mannikarottu, Ph.D.; Robert Leggett; Joshua Weisbrot; Arnold Johnson and Barry A. Kogan, M.D.

Albany Medical College, Albany, NY, USA

2:10 p.m.  
P10. Prostate Derived ETS Factor Expression in Prostate Cancer

Michal Glinianski, M.D.; Joseph Geradts, M.D.; Bagirathan Janarthanan, M.D.; Ashwani K. Sood and Hyung L. Kim

1. University at Buffalo School of Medicine and Biomedical Sciences, Buffalo, NY, USA; 2. Roswell Park Cancer Institute State University of New York, Buffalo, NY, USA
P11. Metabolomic Analysis of Potential Urinary Biomarkers in a Rodent Model of Partial Urinary Tract Obstruction
Dawn L. MacLellan, M.D.; Chantale Langlois; Tobias K. Karakach, Ph.D.; Ian W. Burton, M.Sc.; Greg Irottter, M.D. and John A. Walter, Ph.D.
1Dalhousie University, Halifax, NS, Canada; Institute for Marine Biosciences, National Research Council, Halifax, NS, Canada
2:03 p.m.

P12. The Von Hippel Lindau Tumor Suppressor is a Regulator of P53 in Renal Carcinoma Cell Genotoxic Response
Xiangrong He, M.D., Ph.D.; Edward M. Messing, M.D.; Guan Wu, M.D.; Ph.D.
University of Rochester Medical Center, Rochester, NY, USA
2:06 p.m.

P13. Silencing of the Nox4 NADPH Oxidase Enhances Cisplatin Chemosensitivity of Renal Cell Carcinoma
Jodi K. Maranchie, M.D.
University of Pittsburgh Medical Center, Pittsburgh, PA, USA
2:09 p.m.

P14. Green Tea Protects Bladder Cells from Hydrogen Peroxide-induced Inflammation: Potential of Herbal Agents to Treat Inflammatory Bladder Diseases
Shelby N. Morrison, M.D.; Christian H. Coyle, M.D.; Brian J. Philips, M.D.; Naoki Yoshimura, M.D. and Michael B. Chancellor, M.D.
University of Pittsburgh Medical Center, Pittsburgh, PA, USA
2:12 p.m.

P15. Is the Elderly Patient at Increased Risk for Advanced Disease when Undergoing Robot-assisted Radical Prostatectomy?
Seth A. Capello, M.D.; Tricia Greene, M.D.; Hitendra R. H. Patel, M.D. and Jean V. Joseph, M.D.
1University of Rochester Medical Center, Rochester, NY, USA; 2University College Hospital, London, United Kingdom
2:15 p.m.

Discussion
2:17 p.m.

P16. Canadian Socioeconomic Update
Adjoin
2:30 p.m.

P17. Break in Exhibit Hall
2:30 — 2:50 p.m.

Podium Session II – BPH/Neurourology
Moderator: J. Curtis Nickel, M.D., R. Brewer Auld, M.D.
3:30 — 4:00 p.m.

P18. Welcome and Introductions
3:30 p.m.

P19. Transvaginal Biofeedback and Electrical Stimulation: Effective Treatment for Refractory Urinary Urgency and Frequency Associated with Pelvic Floor Muscle Spasm
James M. Belarmino, M.D.; Emma Ester F. Bendana, M.S.; Jenny H. Dinh, R-PA; Cynthia L. Cook, ANP; Brian P. Murray, M.D. and Paul Feustel, Ph.D. and Elise J. B. De, M.D.
1Albany Medical Center, Albany, NY, USA; 2Bellevue Womans Hospital, Albany, NY, USA
3:33 p.m.

8. Magnetic Resonance Microscopy of the Murine Urinary Tract
Ronald W. Wood, Ph.D.; Raymond B. Baggs, D.V.M. Ph.D.; Robert D. Mayer, M.D. and Scott Kennedy, Ph.D.
1University of Rochester School of Medicine, Rochester, NY, USA; 2Oregon State University, Corvallis, OR, USA
3:40 p.m.

9. Outcomes with the Prolieve Thermoladiation System for BPH
William P. Conners III, M.D. and Ronald Kaufman, M.D.
Albany Medical College, Albany, NY, USA
Adjoin
3:47 p.m.

Podium Session III – Impotence/Infertility
Moderators: Cully Carson, M.D., D. Robert Siemens, M.D.
Welcome and Introductions
10. Efficacy of Sildenafil at 8 and 12 Hours Postdose in Men with Mild to Moderate Erectile Dysfunction
Andrew R. McCullough III, M.D., FACS; Christopher P. Steidle, M.D.; Brian Klee, M.D. and Li-Jung Tseng, Ph.D.
1New York University School of Medicine, New York, NY, USA; 2Northeast Indiana Urology, Ft. Wayne, IN, USA; 3Pfizer Inc, New York, NY, USA
4:00 p.m.

11. Return of Nocturnal Erections and Erectile Function After Bilateral Nerve-sparing Radical Prostatectomy in Men Treated Nightly with Viagra® (Sildenafil Citrate): Subanalysis of a Randomized, Double-blind, Placebo-controlled Trial
Andrew R. McCullough, M.D., FACS; Laurence A. Levine, M.D. and Harin Padma-Nathan, M.D.
1New York University School of Medicine, New York, NY, USA; 2Rush University Medical Center, Chicago, GA, USA; 3Keck School of Medicine at the University of Southern California, Beverly Hills, CA, USA
4:03 p.m.

12. Developing a Prognostic Tool for Peyronie’s Disease: Validation of a Percutaneous Aspiration Technique
Trustin Domes, M.D.; Ling De Young, M.D. and Gerald Brock, M.D.
1Division of Urology, The Department of Surgery, The University of Western Ontario, London, ON, Canada; 2St. Joseph’s Health Care, Lawson Health Research Institute, London, ON, Canada
Adjoin
4:36 p.m.

Slotkin Lecture: Urgency and Flow in the Works of Robert Schumann
Associate Professor of Surgery, Attending Urologist
Adjoin
4:49 p.m.

Fun Night – George Eastman House
7:00 — 10:00 p.m.
SATURDAY, SEPTEMBER 8, 2007

6:00 – 8:00 a.m. SK Run for Residents

6:45 – 7:45 a.m. Residents’ Breakfast – Hyatt Regency Rochester
Making the Transition
Jean V. Joseph, M.D. 8:22 a.m.

7:30 – 9:40 a.m. Podium Session IV – Endourology/Laparoscopy
Moderators: Timothy Averch, M.D.; Jean V. Joseph, M.D.

7:30 a.m. Welcome and Introductions

7:33 a.m. 13. Cold Scissor Dissection Simplified Repair Technique for Partial Nephrectomy
Adam Perlmutter, Satish Sharma, M.D.; Khurshid A. Guru, M.D. and Hyung L. Kim, M.D. 8:29 a.m.

Andrew Feifer, M.D.; Jossee Delisle, B.Sc., R.N. and Maurice Anidjaj, M.D.; F.R.C.P.C.
McGill University, Montreal, PQ, Canada

15. Laparoscopic Partial Nephrectomy: Functional and Oncologic Outcomes with Up to Six Years Follow up
Jean-Baptiste Lattouf, M.D.; Avi Beni, M.D.²; Oswald F. J. D’Ambros; Manfred Gschwendtner, M.D.;² Josef Ziegerhofer²; Karl Leeb ² and Günter Janetschek, M.D.²
¹Centre Hospitalier de l’Université de Montréal, Montreal, PQ, Canada; ²Krankenhaus der Elisabethinen, Linz, Austria

16. Percutaneous Surgery for Treatment – Resistant Biliary Calculi
A. Andrew Ray, BSc, MSc, M.D.¹; Mordechai Duvdevani, M.D.²; Hassan Razvi, M.D.¹ and John D. Denstedt, M.D.¹
¹University of Western Ontario, London, ON, Canada; ²The Hebrew University, Jerusalem, Israel

17. Intraoperative Imaging of Renal Cortical Tumors Using Near Infrared Fluorescence of Intravenous Indocyanine Green
University of Rochester Medical Center, Rochester, NY, USA

18. Robot-assisted Radical Cystectomy and Lymph Node Dissection: Is There a Learning Curve?
Kevan M. Sternberg, M.D.; Scott Wilbur; Lawrence Jenkins; Hyung L. Kim, M.D.; Wei Tan; Gregory Wilding, Ph.D.; James L. Mohler, M.D. and Khurshid A. Guru, M.D.
Roswell Park Cancer Institute, Buffalo, NY, USA 10:04 a.m.

19. Evaluation of an Elevated Creatinine Phosphokinase following DaVinci Robotic

Joy K. Knopf, M.D.¹; Dragan J. Golijanin, M.D.¹; Ganesh S. Palapattu, M.D.¹; Guan Wu, M.D., Ph.D.¹; Hani H. Rashid, M.D.¹; Gregory Oleyo, M.D.²; Louis Eichel, M.D.²; John R. Valvo, M.D.³ and Ralph Madeb, M.D.³
¹Division of Urology, Rochester General Hospital, Rochester, NY, USA; ²University of Rochester Medical Center, Rochester, NY, USA

21. Robot-assisted Radical Cystectomy and Pelvic Lymph Node Dissection: Comparison with Open Radical Cystectomy
Scott Wilbur, B.A.; Jannah Thompson, M.D.; Lawrence Jenkins, Wei Tan; Gregory Wilding, Ph.D.; Pamela Pacente, PA.; Hyung L. Kim, M.D.; Robert P Huben, M.D.; James L. Mohler, M.D. and Khurshid A. Guru, M.D.
Roswell Park Cancer Institute, Buffalo, NY, USA

Adjourn

Guest Lecturer: Sexual Health is the Portal to Men’s Health
Ridwan Shabsigh, M.D
Brooklyn, NY, USA

Break in Exhibit Hall

Podium Session V – Assorted Topics
Moderator: Elise De, M.D., Kevin Pranikoff, M.D.

22. Long-term Durability of an In-office, Nonsurgical Transurethral Radiofrequency Treatment for Female Stress Urinary Incontinence: A Retrospective Analysis
Rodney A. Appell, M.D., F.A.C.S.
Baylor College of Medicine, Houston, TX, USA

23. Videourodynamics Following In-office Transurethral Radiofrequency Collagen Denaturation Treatment for Stress Urinary Incontinence
Kevin J. Cline, M.D.
Regional Urology, Shreveport, LA, USA

24. Decrease in Mortality in a Contemporary Series of Patients with Fournier’s Gangrene
Anthony T. Corcoran, M.D.¹; Marc C. Smaldone, M.D.¹; Erin P. Gibbons, M.D.¹; Thomas Walsh, M.D.² and Benjamin Davies, M.D.³
¹University of Pittsburgh Medical Center, Pittsburgh, PA, USA; ²University of California, San Francisco, San Francisco, CA, USA

25. The Median Lobe in Robot-assisted Radical Prostatectomy; Evaluation and Management
Lawrence Jenkins, B.S.; Mark Nogueira, M.D.; Terence N. Chapman, M.D.; Gregory E. Wilding, Ph.D.; Wei Tan, M.A.; Hyung H. Kim, M.D.;
26. Prediction of Differential Renal Function as Determined by Contrast and Non-contrast Computed Tomography

Shelby N. Morrisroe, M.D.; Erin P. Gibbons, M.D.; Benjamin R. Stockton, M.D.; Kyongtae T. Bae, M.D., Ph.D.; Shelby N. Morrisroe, M.D.; Cheng Hong, M.D., Ph.D.; Christopher Deible, M.D., Ph.D.; Timothy Averich, M.D. and Stephen V. Jackman, M.D.

University of Pittsburgh Medical Center, Pittsburgh, PA, USA

10:51 a.m.

P17. Expression of Frizzled-8 in the Bladder Urothelium of Intestinal Cystitis Patients

Robert Mayer, M.D.; Alan Freidman, Ph.D.; Edward Messing, M.D. and Jay Reeder, Ph.D.

University of Rochester, Rochester, NY, USA

11:00 a.m.

P18. PSA Levels in Relation to NSAID and Acetaminophen Consumption: Results from the 2001-2002 National Health and Nutrition Examination Survey

Eric A. Singer, M.D., M.A.; Ganesh S. Palapattu, M.D.; Dragan J. Golijanin, M.D. and Edwin van Wijngaarden, Ph.D.

University of Rochester Medical Center, Rochester, NY, USA

11:15 a.m.

P19. Patterns of Care for Clinically Localized Prostate Cancer at the VA Medical Centers

William P. Connors III, M.D.; Badar Mian

Albany Medical College, Albany, NY, USA

11:30 a.m.

P20. Raman Spectroscopy to Predict Prostate Cancer Death After Radical Retropubic Prostatectomy

John Maier, M.D.; Matthew Tollefson, M.D.; James Magera, M.D.; Thomas Sebo, M.D.; Jeffrey Cohen, M.D. and Igor Frank, M.D.

Chemintrage Corp., Pittsburgh, PA, USA

11:45 a.m.

P21. Early Experience with Percutaneous Renal Cryotherapy

Joy K. Knapf, M.D.; Ralph Madeb, M.D.; Dragan J. Golijanin, M.D.; Eric A. Singer, M.D., M.A.; John R. Valvo, M.D. and Louis Echel, M.D.

The Department of Urology, Rochester General Hospital and Pellekanni Robotic and Minimally Invasive Center, Rochester, NY, USA

12:00 p.m.

P22. Outcome after Robot-assisted Radical Prostatectomy is not Predicted by Surgical Case Order

Seth A. Capello, M.D.; Tricia Greene, M.D.; Hitendra R. H. Patel, M.D. and Jean V. Joseph, M.D.

1

University of Rochester Medical Center, Rochester, NY, USA

2

University College Hospital, London, United Kingdom

12:15 p.m.

P23. Ajulemic Acid (IP-751) Inhibits Release of Calcitonin Gene-related Peptide from Isolated Rat Bladder

Matthew H. Hayn; Christian H. Coyle; Shachi Tyagi; Naoki Yoshimura; Michael B. Chancellor and Pradeep Tyagi

University of Pittsburgh, Pittsburgh, PA, USA

12:30 p.m.

P24. Effect of Wnt Signaling on the Invasive Characteristics of Prostate Cancer Cells

Bilal Chughtai, M.D.; Elina Levina, Ph.D.; Badar Mian, M.D. and Ralph Buttyan, Ph.D.

Albany Medical Center, Albany, NY, USA

12:45 p.m.

P25. Flexible Ureteroscopy for Proximal Stones in Pediatric Patients: How Complete Access Simplifies the Surgical Approach

Anthony T. Corcoran, M.D.; Dev Mally, B.S.; Marc C. Smaldone, M.D.; Mark F. Bellinger, M.D.; Francis X. Schneck, M.D.; Steven G. Docimo, M.D. and Hsi-Yang Wu, M.D.

University of Pittsburgh Medical Center, Pittsburgh, PA, USA

12:00 p.m.

P26. Acute Intermittent Symptomatic Hydronephrosis — Diagnostic and Etiologic Considerations

Marc C. Smaldone, M.D.; Glen M. Cannon Jr., M.D.; Arlene Smaldone, D.N.Sc., CPNP.; Ajay K. Nangia, M.D.; Mark F. Bellinger, M.D.; and Francis X. Schneck, M.D.

1

University of Pittsburgh Medical Center, Pittsburgh, PA, USA

2

Columbia University, New York, NY, USA; Dartmouth-Hitchcock Medical Center, Lebanon, NH, USA

1:00 p.m.

P27. The Role of Stimulatory Ligand Expression on Prostate Cancer Cells and Evasion of Immune Effector Cell Killing

D. Robert Siemens, M.D., F.R.C.S.C.; Nianping Hu, Ph.D. and Charles H. Graham, Ph.D.

Queen’s University, Kingston, ON, Canada

1:15 p.m.

P28. Evaluation of Renal Cell Carcinoma Vaccines Targeting Carbonic Anhydrase IX Using Heat Shock Protein 110

Hyung L. Kim, V, M.D.; Xiaolea Sun; James L. Mohler, M.D.; John R. Subjeck, Ph.D. and Xiang-Yang Wang

Roswell Park Cancer Institute, Buffalo, NY, USA

1:30 p.m.

P29. Dietary Habits and Prostate Cancer Detection: A Case-control Study

Moamen M. Amin, Fellow; Suganthiy Jeyaganth, Statistician; Nader Fahmy, Resident; Louis Bégin, Pathologist; Samuel Aronson, Urologist; Stephen Jacobson, Urologist; Simon Tanguay, Urologist; Wassim Kassouf, Urologist and Armen G. Aprikian, Urologist.

McGill University Health Center, Montreal, PQ, Canada
28. Biochemical and Local Control of Primary Prostate Cancer Patients Treated with Cryoablation and Tracked with the COLD Registry

1Atlantic Urology, Daytona Beach, FL, USA; 2MD Anderson Cancer Center, Houston, TX, USA; 3University of California, California, AB, Canada; 4University of Rochester, Rochester, NY, USA; 5Society for Cryosurgery, Trieste, Italy; 6Cleveland Clinic, Cleveland, OH, USA

29. Androgen Replacement Therapy After Prostate Cancer

William P. Conners III, M.D. and Ronald Kaufman

Albany Medical College, Albany, NY, USA

30. Ablatherm HIFU, The Toronto Experience

William Orovan, M.D. and Edward Woods

1McMaster University, Hamilton, ON, Canada; 2University of Toronto, Toronto, ON, Canada; 3Scarborough General Hospital, Toronto, ON, Canada

31. Prostate Brachytherapy with Cesium 131: Effects on Gland Volume and Post-operative Symptoms

Erin P. Gibbons, M.D.; Ryan P. Smith, M.D.; Sushil B. Beriwal, M.D.; Komanduri Krishna, Ph.D. and Ronald M. Benoit, M.D.

University of Pittsburgh Medical Center, Pittsburgh, PA, USA

32. Randomized Trial of Active Cellular Immunotherapy with Sipuleucel-T in Androgen Dependent Prostate Cancer (ADPC)

Joseph L. Chin, M.D. and Mark W. Frohlich, M.D.

1London Health Sciences Centre, London, ON, Canada; 2Dendreon Corporation, Seattle, WA, USA

33. Subsequent Prostate Cancer Detection in Patients with Prostatic Intraepithelial Neoplasia or Atypical Small Acinar Proliferation

Moamen M. Amin, Fellow; Suganthiny Jegagan, Statistician; Nader Fahmy, Resident; Louis Bégin, Pathologist; Samuel Aronson, Urologist; Stephen Jacobson, Urologist; Simon Tanguay, Urologist and Armen G. Aprikian, Urologist

McGill University Health Center, Montreal, PQ, Canada

34. Pathological Features of Prostate Cancer with Previous High Grade Prostatic Intraepithelial Neoplasia (HPIN) and/or Atypical Small Acinar Proliferation (ASAP)

Darwin L. Lim, M.D.; Mazen Abdelhady, M.D.; Donal Downey, M.D.; Jonathan Izawa, M.D. and Joseph Chin, M.D.

University of Western Ontario, London, ON, Canada
9:00 – 9:30 a.m.  Guest Lecturer: Prostate Cancer Expectant Management
Valentine H. Carter, M.D.
Baltimore, MD, USA

9:30 a.m.  Adjourn

9:30 – 10:00 a.m.  Break

10:00 a.m.  Podium Session VII – General Oncology
Moderator: Hugh Fisher, M.D., Joel B. Nelson, M.D.

Welcome and Introductions

10:03 a.m.  35. Partial Cystectomy for Urothelial Carcinoma: Ten Year Experience
Marc C. Smaldone, M.D.¹; Bruce L. Jacobs, M.D.; Arlene Smaldone, DNSc, CPNP²; and Ronald L. Hrebinko, M.D.¹
¹University of Pittsburgh Medical Center, Pittsburgh, PA, USA
²Columbia University, New York, NY, USA

10:10 a.m.  36. Laparoscopic Nephrectomy and Resection of Retroperitoneal Lymph Nodes for Renal Carcinoma is Safe and Feasible
Satyan Shah; Satish Sharma, M.D.; Khurshid A. Guru, M.D. and Hyung L. Kim, M.D.
Roswell Park Cancer Institute, Buffalo, NY, USA

10:17 a.m.  37. Pathological Upstaging in Clinically Localized Renal Tumor: Is It a Concern?
Darwin L. Lim, M.D.; Mazen Abdelhady, M.D.; Paul Martin; Stephen Pautler, M.D.; Jonathan Izawa, M.D. and Joseph Chin, M.D.
University of Western Ontario, London, ON, Canada

10:24 a.m.  38. Utility of Urinary Cytology in the Workup of Asymptomatic Microscopic Hematuria
Andrew Feifer, M.D.C.M.; Wassim Kassouf, M.D., F.R.C.P.C.; Simon Tanguay, M.D., F.R.C.P.C.; Armen G. Aprkian, M.D., F.R.C.P.C. and Jordan Steinberg, M.D., F.R.C.P.C.
McGill University, Montreal, PQ, Canada

10:31 a.m.  39. Cystectomy: Time and Treatment Factors Affecting Tumour Progression
Paul H. Johnston, B.Sc. (Hons), M.D.; Zach Klinghoffer, B.Sc., M.D.; M Wang; A Day; Robert Siemens, M.D. and Jun Kawakami, M.D.
Queen’s University, Kingston, ON, Canada

10:38 a.m.  40. Clinical Grading and Staging of Prostate Cancer is Relatively Inaccurate, but Still Provides Important Value for Intra-operative Planning
Seth A. Capello, M.D.; Tricia Greene, M.D.; Hitendra R. H. Patel, M.D. and Jean V. Joseph, M.D.
¹University of Rochester Medical Center, Rochester, NY, USA
²University College Hospital, London, United Kingdom

10:45 a.m.  41. Robotic Cystectomy: A Potential Option for Cancer Care
The Department of Urology, Rochester General Hospital and Polesieni Robotic and Minimally Invasive Center, Rochester, NY, USA

10:52 a.m.  42. In Vitro Proliferative Effects of Green Tea: Potential Dietary Intervention Therapy for Bladder Cancer
Shelby N. Morrisroe, M.D.; Brian J. Phillips, M.D.; Christian H. Coyle, M.D.; Naoki Yoshimura, M.D. and Michael B. Chancellor, M.D.
University of Pittsburgh Medical Center, Pittsburgh, PA, USA

11:00 a.m.  Remarks from New Section President
James W.T. Wilson, M.D.
Adjourn
# Society of Urologic Nurses and Associates (SUNA) Nursing Program

Program held at the Hyatt Regency Rochester unless otherwise noted.

**Saturday, September 8, 2007**

Social Events

Football Night
Hyatt Regency Rochester
Thursday, September 6, 2007
7:30 - 11:00 p.m.

Kick off football season with your colleagues at the Hyatt Regency Rochester on Thursday, September 6 from 7:30 - 11:00 p.m., as the 2007 Super Bowl Champion Indianapolis Colts take on the New Orleans Saints. Football food and beverages will be provided while you enjoy the opening game on a large screen TV. Wear your favorite team jersey and come prepared to cheer for your favorite team!

Tour Options
Friday, September 7 and Saturday, September 8, 2007
Cost: $25 USD per person

The following tours have been reserved for guests on Friday, September 7 and Saturday, September 8, 2007. Each tour group will meet in the lobby of the Hyatt Regency Rochester prior to departure. Guests are encouraged to pre-register for tours when they pre-register for the conference, as spots will go quickly.

On-site tour registration will take place at the hotel on Thursday, September 6 between 7:00 a.m. - 5:00 p.m. and will be on a first-come, first-served basis for any empty spots. Payments can be made on site at the hotel for any tours that have not been pre-registered and paid for.

Please note that if minimum numbers are not met, tours will be cancelled.

Museum Shuttle Bus Tour: Rochester has a number of wonderful and unique museums in its midst. Take the morning and explore which ever museums interest you. For those museums you miss on Friday, join us again on Saturday!

On Friday, September 7, the shuttle bus will depart the Hyatt Rochester at 9:00 a.m. and rotate between all four museums listed below. (Please note – opening time varies at each museum). The shuttle bus will return to the Hyatt Regency Rochester at 1:00 p.m.

On Saturday, September 8, the shuttle bus will depart the Hyatt Regency Rochester at 1:00 p.m. and rotate between all four museums listed below. The shuttle bus will return to the Hyatt Regency Rochester at 5:00 p.m.

Prices include transportation and admission to two of the four Museums. Lunch is on your own, and each museum offers lunch options. Please see below for descriptions of the museums and lunch options at each location.

Memorial Art Gallery (open from 11:00 a.m. – 5:00 p.m.): A visit to the Memorial Art Gallery is a journey through more than 5,000 years of art history. From the relics of antiquity to works in the vanguard of contemporary movements, the Gallery offers a panorama of the world’s art. Lunch option: Cutler’s Restaurant, with its excellent seasonal menu, features appetizers, soups, salads, hot entrees, desserts and full beverage service. You will be surrounded with original works of art on the stylish upper terrace and in the more intimate and formal Cutler Room.

For more information, visit www.mag.rochester.edu.

George Eastman House (open from 10:00 a.m. – 5:00 p.m.): George Eastman House may have only one address, but it has many destinations. As the world’s preeminent museum of photography, Eastman House cares for and interprets hundreds of thousands of photographs encompassing the full history of this medium. Eastman House is also one of the oldest film archives in the United States and is now considered to be among the top cinematic collections worldwide. The motion picture archives hold more than 25,000 film titles produced between 1894 and the present. Be sure to explore the mansion that was once home to George Eastman, founder of the Eastman Kodak Company. The house and its exquisite gardens have been restored and offer visitors access to what was once a privileged view. Lunch option: The Café serves gourmet baked goods and a rotating menu of tempting soups and sandwiches. Adjacent to the shop, the Café offers readers’ corners for dining and browsing. For more information, visit www.eastmanhouse.org.

Rochester Museum and Science Center (open from 9:00 a.m. – 5:00 p.m.): The Rochester Museum and Science Center features exhibits that are related to natural history, anthropology and natural sciences. In addition to the multifarious items that can be viewed in the museums varied collection, the Strasenburgh Planetarium features shows that point out the awesomeness of the universe, through features that educate one about the stars, black holes, the solar system, and the cosmology of the universe as we know it. Lunch option: The Café at RMSC offers snacks, beverages and delectable lunches in a bright and friendly setting.

For more information, visit www.rmsc.org.

Strong National Museum of Play (open from 10:00 a.m. – 5:00 p.m.): This sprawling museum documents the history of play in American culture. Based on the personal collection of Margaret Woodbury Strong, the museum is a Smithsonian affiliate. It is also home to the National Toy Hall of Fame. Recently renovated and enlarged to accommodate the Dancing Wings Butterfly Garden (additional charge applies), it is now the second largest children’s museum in the United States and the only one dedicated specifically to the study of play. There are many hands-on, interactive activities that will satisfy high-energy kids, as well as a variety of low-key activities such as “Make It and Take It” craft tables and cozy book nooks. Allow extra time for two great museum shops and two super-colorful rides – a historic carousel or a 23-passenger miniature train. Lunch option: A sizeable food court features a variety of options: Pizza Hut, Taco Bell Express and Subway plus Louie’s Sweet Shoppe and Bill Gray’s Restaurant, housed in a vintage diner.

For more information, visit www.strongmuseum.org.
Spa Options

SPA ELAN
SATURDAY, SEPTEMBER 8, 2007

Enjoy your choice of facial, massage, pedicure or manicure at the Spa Elan at the Lodge at Woodcliff. The services, which have been selected by Spa Elan, are designed to be energizing, rejuvenating, renewing and inspiring. They believe that well-being and beauty are the by-products of a healthy body, mind and soul. Come and discover their quality service in an amazing setting—and leave feeling better than you can imagine.

Appointments are on a first-come, first-served basis and will be offered from 1:00 – 4:30 p.m. Please indicate your timing preference and the type of service you would like to receive on the registration form. Final confirmation of your appointment time will be provided at the on-site registration desk on-site in Rochester.

The Elan Spa is a mature environment of harmony and relaxation. We respect the right of all our guests to privacy and quiet. Please follow these guidelines of spa etiquette:

- cellular phones and pagers are prohibited
- children 16 years and younger will need to be accompanied by an adult

Cost: Facial $110  Pedicure $70  Massage $100  Manicure $60

Prices include 50-minute sessions, wine and cheese. Transportation to the spa is not provided.

CANCELED

FUN NIGHT
George Eastman House
FRIDAY, SEPTEMBER 7, 2007
7:00 – 10:00 p.m.

“Lights, camera, action!” Enjoy our themed Red Carpet Celebrity event at George Eastman House including paparazzi, celebrity look-a-likes and plenty of photo opportunities! With delicious food, great ambiance and entertainment, tonight is sure to be a night with the stars! Stroll the Schuyler C. Townsend Terrace Garden, tour the exquisite mansion, and eat at your leisure at the delectable buffet stations. Explore the photography exhibits in the many Galleries and shop for your favorite film and photography collector and gift items in The Eastman House Store. “Say Cheese!”

George Eastman House may have only one address, but it has many destinations. As the world’s preeminent museum of photography, Eastman House cares for and interprets hundreds of thousands of photographs encompassing the full history of this medium. Eastman House is also one of the oldest film archives in the United States and is now considered to be among the top cinematic collections worldwide. The motion picture archives hold more than 25,000 film titles produced between 1894 and the present. Be sure to explore the mansion that was once home to George Eastman, founder of the Eastman Kodak Company. The house and its exquisite gardens have been restored and offer visitors access to what was once a privileged view. In addition to the musical entertainment that will be provided for your group this evening, the Museum exhibits will be opened for guests to wander through with tour guides throughout the evening.

Special Entertainment: Please be sure to enjoy Dr. Steven Laitz’ piano and music history entertainment in the Living Room at the George Eastman House! Dr. Steven Laitz is currently Associate Professor of Music Theory and Chair of the Theory Department and Affiliate Faculty member in the Chamber Music Department at the Eastman School of Music, University of Rochester. He is also a member of the Piano Faculty at the Chautauqua Institution’s Summer Piano Festival. Dr. Laitz teaches private piano lessons.

He earned his bachelor’s and master’s degrees from the University of California, Riverside, in piano performance, theory and composition. He earned his Ph.D. in music theory from the Eastman School of Music, University of Rochester. Dr. Laitz has received various teaching awards, including Eastman’s Eisenhart Award for Distinguished Undergraduate Teaching by a Faculty Member. He has lectured and performed extensively not only in the United States, but also in Australia. He has published articles in various theory journals including Integral and Theory and Practice and chapters in books including “Paths to Musicianship” in the Australian publication Musicianship in the 21st Century. He is currently completing the second edition of his music theory textbook The Complete Musician: An Integrated Approach to Theory, Analysis, and Listening for Oxford University Press. The book includes several ancillaries, including workbooks, music DVDs, MP3 files and instructor’s manual).

Notes: Smoking is not permitted in the museum. The drinking age in the United States is 21 years. There will be no exceptions.

To learn more about George Eastman House, please visit www.eastmanhouse.org.

Note: If you have registered for the NS-AUA’s 2007 Annual Meeting, you will receive one complimentary ticket. Additional tickets are $100.

5K RUN FOR RESIDENTS
SATURDAY, SEPTEMBER 8, 2007
6:00 – 8:00 a.m.

For runners and walkers, come and run or walk for residents! Come and join your colleagues on an early morning run along the Erie Canal Trailway. You will be bussed to the start of the run in the morning. You can pre-register for this event when you pre-register for the conference on the web site or you can register on site. Prizes will be given to the top three male and female runners. Race begins at 7:00 a.m.

Cost: $10 (all proceeds go toward the Section’s Foundation in support of educational and research grants for residents), Cost includes water bottles, Gatorade, fresh fruit, yogurt and granola bars.
a step back in time. These clubs must be taken back to 1916. Donald Ross. IC

GOLF TOURNAMENT
IRONDEQUOIT COUNTRY CLUB
SATURDAY, SEPTEMBER 8, 2007
1:30 – 5:30 p.m.

Irondequoit Country Club enjoys a rich history of providing its membership a superlative experience dating back to 1916. Located in suburban Rochester, NY, in the village of Pittsford, the club is situated on 130 acres of beautiful rolling hills and picturesque views. The storied course was designed to the specifications of well-known Golf Course Architect, Donald Ross. ICC is proud to boast that the club adheres to the design principles that were intended for this classic course.

ICC is also excited to be the home of the 2005-2008 Xerox Classic, a featured event on the Nationwide Golf Tour. Golf professionals on the tour have raved of the traditional Donald Ross design. Nationwide Tour commissioner Bill Calfee remarked, “If you asked the players what their favorite course was, I guarantee you 75 percent would say it was this [ICC] golf course . . . It’s a little bit of a step back in time. These guys play all these big golf courses where you have to hit it long. This is a golf course where you have to manage your shots, shape the ball, think out there, and they love playing courses like this where you have to hit all the clubs in your bag. It brings everybody into the competition.”

Guests are invited to bring their own golf clubs or to rent from the golf course (please indicate if you require right or left handed clubs). Electric carts will also be provided for every pair of golfers.

Guests can pre-register for this event when they register for the conference or they can register on-site upon arrival at the hotel. Please pick up your information packages for the golf tournament from the registration desk when you arrive for the conference.

Note: For those guests who are bringing their golf clubs, your clubs will be transported to the golf course prior to the tournament. As such, all golf clubs must be tagged with your name when they are dropped off in the morning of the event. Tags will be provided for those who do not have a name tag for their golf bag.

To learn more about the Irondequoit Country Club, please visit www.irondequoitcc.org.
PRESIDENT’S BANQUET
ROCHESTER CONVENTION CENTER
SATURDAY, SEPTEMBER 8, 2007
7:00 – 10:00 p.m.

President’s Banquet

Join us for an evening of Historical Proportions!
Enjoy the discourse by Distinguished Alumni Professor of Surgery and former Chair of the Department of Surgery at the University of Rochester, Dr. Seymour Schwartz!

- Reception at 7:00 p.m. in the Riverside Court
- Banquet, Program and Awards at 8:00 p.m. in the Highland Ballroom
- Semi-formal attire

Dr. Schwartz is a world renowned surgeon, scholar, author and lecturer. He is editor of the preeminent surgical textbook Principles of Surgery, former editor of the Journal of the American College of Surgeons and former editor of The Yearbook of Surgery. He has been President of the American College of Surgeons as well as the American Surgical Association, and the Society for Clinical Surgery. What is perhaps less well known among physicians is that Dr. Schwartz is also one of the preeminent authorities of the cartography of North America. He serves on the Board of Trustees of the Smithsonian Institution and the Geography and Map division of the Library of Congress and is presently completing his 5th book on cartography. Dr. Schwartz will lecture the attendees on a particular area of his expertise, the French and Indian War, focusing within the geographic confines of the Northeastern Section of the AUA.

Note: If you have registered for the NS-AUA’s 2007 Annual Meeting, you will receive one complimentary ticket (Residents receive 2 tickets). Additional tickets are $75 and can be purchased at the Registration Desk. Children under 21 are not permitted.
Quick Guide to Rochester

Meeting Location
Rochester Riverside Convention Center
125 East Main Street
Rochester, NY 14604
www.rrcc.com

Accommodations and Meetings
Hyatt Regency Rochester
125 East Main Street,
Rochester, NY, USA 14604
The Hyatt is conveniently connected to the Rochester Riverside Convention Center by enclosed skywalk. www.rochester.hyatt.com

Climate
The Rochester region is famous for glorious fall color and rich autumn harvests. It is a beautiful time to enjoy Upstate New York. From apple and pumpkin picking and wine tasting to visiting the farm markets and embracing the fall foliage, Rochester is full of “fall spirit.” In early September you can expect daytime temperatures in the high 60°’s F- low 70°’s F. Evening temperatures could dip into the 50°’s F. Bring clothing that can be layered and rain protection just in case.

Tourist Information
Greater Rochester Visitor Association, Inc.

Consider InterStim™ Therapy, an effective treatment option for your OAB patients. PROSTIVA™ RF Therapy – precise, proven RF technology – treats patients with symptoms of BPH.

Novasys Medical, Inc.
405
39684 Eureka Drive
Newark, CA 94560
www.novasysmedical.com
Novasys Medical, Inc. launched the Renessa™ System, a non-surgical treatment for female stress urinary incontinence. The device utilizes radiofrequency energy to remodel collagen within tissue targets in the bladder neck and proximal urethra. Renessa offers a new, non-incisional option which can be performed in a doctor’s office.

Olympus
507
One Corporate Drive
Orangeburg, NY 10962
www.olympussurgical.com
Olympus is a precision technology leader that provides solutions that enable urologists to achieve excellent clinical outcomes across the continuum of care, while establishing new imaging performance standards with a complete range of rigid-, fiber- and videoscopes as well as imaging systems for urology.

PDLabs
410
1923 Stone Oak Parkway, Suite 200
San Antonio, TX 78258
800-687-9014
www.pdlabs.net
PDLabs developed and patented Transdermal Verapamil 15% Gel for the treatment of Peyronie’s disease. With eight years of proven efficacy and Urologist acceptance, Transdermal Verapamil 15% Gel is the first-line, non-invasive treatment for Peyronie’s disease. Stop by our booth for a copy of the new peer-reviewed study.

PerSys
505
1300 Crittenden Lane, Suite 101
Mountain View, Ca 94043
www.Persys.com
PerSys™ develops and commercializes devices to make urologic and endoscopic procedures easier, less traumatic and more effective therapeutically. The company’s latest release, the PerSys Accordion™ Stone Management Device, allows instrument introduction, stone localization, and fragment removal using a single instrument to simplify and shorten endoscopic lithotripsy procedures.

Pfizer
301
235 East 42nd Street, Mail Stop 219-2-18
New York, NY
www.pfizer.com

Prous Science
608
3205 Douglas Point Court
Riva, MD 21140
www.prous.co
TTMed® – Urology (www.ttmedurology.com) is a web site that contains a wealth of valuable news and education for practicing urologists. Designed to develop the study of urology by initiating, coordinating, and stimulating debate. Accessed via the internet the platform offers training and continuing medical education (CME) activities for physicians and other health care professionals.

Q-Med Scandinavia Inc.
309
220-55 46th Avenue
Bayside, NY 11361
www.deflux.com
Deflux is a sterile, highly viscous gel of dextranomer microspheres in a carrier gel of non-animal stabilized hyaluronic acid, constituting a biocompatible and biodegradable implant for children with VUR. The stabilized hyaluronic acid acts mainly as a carrier, leaving the dextranomer microspheres at the implant site.

Richard Wolf
408
353 Corporate Woods Parkway
Vernon Hills, IL 60061
www.richardwolfusa.com

sanofi-aventis
601
55 Corporate Drive, Mail Stop 55B-430B
Bridgewater, NJ 08807
www.sanofi-aventis.com
sanofi-aventis is one of the world leaders in the pharmaceutical industry, ranking number one in Europe. Backed by a world-class R&D organization, sanofi-aventis is developing leading positions in seven major therapeutic areas: cardiovascular, thrombosis, oncology, metabolic diseases, central nervous system, internal medicine and vaccines. sanofi-aventis is listed in Paris (EURONEXT: SAN) and in New York (NYSE: SNY)
Siemens Medical Solutions of Siemens AG  503
51 Valley Stream Parkway
Melvern, PA 19355
www.simens.com/medical

Siemens Medical Solutions of Siemens AG (NYSE: SI) is one of the world’s largest suppliers to the health care industry. The company is known for bringing together innovative medical technologies, health care information systems, management consulting, and support services, to help customers achieve tangible, sustainable, clinical and financial outcomes. Recent acquisitions in the area of in-vitro diagnostics – such as Diagnostic Products Corporation and Bayer Diagnostics – mark a significant milestone for Siemens as it becomes the first full service diagnostics company. Employing more than 41,000 people worldwide and operating in over 130 countries, Siemens Medical Solutions reported sales of 8.23 billion EUR, orders of 9.33 billion EUR and group profit of 1.06 billion EUR for fiscal 2006 (Sept. 30).
